ROBINSON AND WATSON BOTH WIN IN INDIANA

Veteran Senator Has 3 to 1 Margin.

BULLETIN.
Indianapolis, Ind., May 5.—(AP)—Returns from 538 out of 3,551 precincts in the state showed for the long term Republican senatorial nomination: Senator James E. Watson, 35,484; Claris Adams, 13,361. For the short term 526 precincts gave: Senator Arthur R. Robinson, 23,837; Arch G. Graham, 11,665; Oswald Ryan, 5,101.

BY ARTHUR EVANS.
(Chicago Tribune Press Service.)
Indianapolis, Ind., May 4.—[Special].—Incomplete returns at midnight showed Senator James E. Watson a winner over Claris Adams in today's Republican primaries by an indicated plurality of 100,000 votes. Watson is running better than two to one against Adams.

On the basis of the figures now in Senator Robinson's hands the nomination without a contest is a foregone conclusion, provided the present rate is maintained. If a candidate fails to have a majority of all votes cast nomination goes to a state convention.

Dry Indorsed Both.
Watson and Adams were both indorsed by the Anti-Saloon league. The main issue on which the Adams campaign was "get rid of the boss."

Long Ballots Slow Up Vote.
The vote was extremely slow, due to long ballots, which tangled itself in the fest of the electorate as it entered the booths.

SMALL PARDON BOARD FACES CRIME INQUIRY

Governor Himself May Be Called.

Swift action is expected in solving the murders of Assistant State's Attorney William H. McSwiggan, Thomas Duffy, and James J. Doherty as the result of secret warrants issued yesterday calling for the arrest of Al Capone, commonly known among gangsters as Al Brown.

It has been established to the satisfaction of the state's attorney's office and the detective bureau that Capone in person led the slayers of McSwiggan. It has become known that five automobiles carrying nearly thirty gangsters, all armed with weapons ranging from pistols to machine guns, were used in the triple killing. It also has been found that Capone handled the machine gun, being compelled to this act in order to set an example of fearlessness to his less eager companions.

The secret warrants were placed in the hands of selected authorities for service.

Paroles and pardons granted by Gov. Small and his board are to figure prominently in Cook county's special grand jury investigation of crime-ridden-deer-politics. This phase of the inquiry is to be carried on under the clause of Judge William V. Brothers' instructions which bids the grand jury to scrutinize all causes of crime.

Attorney General Oscar Carlstrom and State's Attorney Robert E. Crowe, who are in charge of the inquiry that followed the murders of Assistant State's Attorney William H. McSwiggan, James J. Doherty, and Thomas Duffy, admitted yesterday they contemplated this action.

That Chauncey Jenkins, head of Gov. Small's welfare board, and Will Colvin, head of the division of pardons and paroles, will be called as witnesses was deemed certain, and perhaps Gov. Small himself may be called.

Parole Scandals Grow.
In charging this grand jury Judge Brothers told it not only to investigate crime causes but to spare neither the high nor the low. Attorney General Carlstrom and Prosecutor Crowe were in accord that the parole and pardon scandals of the state administration are undoubtedly one of the causes of Cook county's appalling crime record.

That Walter Stevens, who is now enjoying liberty due to the clemency of Small, Colvin, and Jenkins, is connected with one of the beer gangs is information regarded as positive by the chief law enforcement officers.

That Porky [Frank] Dillon, who a few weeks ago waved a pardon from Gov. Small in the face of Deputy Detective Chief John Steeg, is an associate in the beer business of William [Buck] Cook and George Vogel, both ex-convicts, is a positive assertion of the police.

Roll of Pardons.
Others whose paroles or pardons are to be investigated by the special grand jury are:

Edward [Spike] O'Donnell, sent to the penitentiary for a bank robbery, pardoned, and engaged in the beer business until a large number of his followers were killed by a rival gang.

Walter Quinlan, sent to prison for robbery, pardoned, and later killed while delivering beer. He was one of the gang of which Doherty was a leader.

William Byrne, killed on a county highway near Morton Grove some months after being paroled.

Frank Bender, sent to penitentiary for several robberies of extreme daring, but given the benefit of a shortened sentence by the parole board; recently arrested with a loaded revolver in his hand in a hallway where he was waiting for some one to pass.

James Johnston, paroled and permitted to return to a life of crime, which was terminated in his killing a policeman and being killed by another policeman.

WOMAN POISONED BY ERROR; PHONE GIRL SAVED LIFE

Prompt action by a telephone operator last night probably saved the life of Mrs. Elsie Smith, 23 years old, after she had swallowed poison at her home, 855 Buena place.

Mrs. Smith called the police and reported that she had taken the poison by mistake for cough medicine and urged that she be hurried to her home.

The police appealed to the telephone girl, she traced the call, and in a few minutes a squad reached the house and took Mrs. Smith to the Lake View hospital. Physicians who treated her said she would recover.

John D. Jr. Buys City Block to Help Low Rent Homes

New York, May 4.—[Special].—The fourth step in the John D. Rockefeller Jr. program for providing low rent homes became known today with the announcement of the purchase of an entire city block in the northern section of Harlem. The block contains sixty city lots. It was held by the sellers at approximately \$500,000.

Peabody Aid His Daughter by Adoption

New York, May 4.—[Special].—George Foster Peabody, retired banker and philanthropist, who is 74 years old, today adopted as his daughter Mrs. Marjorie Knapp Waite, a widow, who for the last five years has been associated with Mr. Peabody in his philanthropic endeavors.

The adoption papers were filed at Ballston Spa, the county seat of Saratoga county, where Mr. Peabody makes his home. Mr. Peabody confirmed the announcement at the Harvard club tonight. He came to the city to attend the funeral today of the late Oscar B. Straus, his old time friend.

Reward for Her Ability.
Mr. Peabody said Mrs. Waite was a very able woman and had been helpful in carrying on the work instituted by his wife, the late Mrs. Katrina Trask Peabody, among working girls of Saratoga Springs.

Mr. Peabody also intimated that the legal adoption of Mrs. Waite would mean that in the event of his death the philanthropic affairs in which he was interested would remain in the hands of a person who was thoroughly conversant with them.

Mrs. Waite, widowed two years, is a graduate of the University of Minnesota and was formerly a member of the faculty of the Hollywood School for Girls in Los Angeles.

Staris Working Girls' Schools.
About seven years ago she became secretary of the Knox School for Girls at Cooperstown, in which Mr. Peabody is interested. About five years ago she became associated with Mr. Peabody in the organization of a community center for working girls at Saratoga Springs. This proved so successful that Mr. Peabody arranged for Mrs. Waite to establish a summer school at Saratoga for working women of New York City. She is in her late thirties.

Mr. Peabody has for many years been an outstanding figure in financial, philanthropic, educational, and political circles.

SO. PARK COP, OFF DUTY, SHOT; NEW MYSTERY

Off duty and without either his star or his revolver, Policeman Michael O'Shea of the south park forces was shot in the right thigh by a mysterious assailant last night at 35th street and Ashland avenue.

He was first taken to St. Luke's hospital by a passing taxicab driver. He declined to tell his name or to give any details of the shooting. His identity was traced through a key found in one of his pockets, and he was taken to the Bridewell hospital.

An unidentified man shot him, he said, as he stepped from a cigar store, O'Shea is 23 years old and lives at 1619 West 23d street.

JEWEL LADEN BANDIT COWS TRAFFIC, FLEES

A daring young bandit, a revolver in one hand as a threat to motorists and a tray of stolen diamonds in the other, last night threaded his way through automobile traffic in Milwaukee avenue and escaped after he had thrown a padded brick through the display window of Samuel Schmidt's jewelry store, 1243 Milwaukee avenue, and seized the gems. His loot, consisting of twenty diamond rings, was valued at between \$5,000 and \$7,000.

Bomb Damages Hardware Store in Lawrence Avenue

The General Hardware store, 3755 Lawrence avenue, was damaged by a bomb that exploded at the front entrance late last night. David Bresler, son of the head of the company, who was working late, saw the smoke arising from the fuse and warned the bookkeeper. Both fled just as the bomb exploded. Neither was injured.

Mrs. George Durkin, wife of a city fireman, living on the second floor, and her 6 months old baby fled to the street uninjured. Bresler attributed the bomb to the failure of his father to join the Hardware Dealers' association.

Child Dies from Blow of Bat That Boy Lets Slip

Slava Havilek, 7 years old, 1234 Throop street, died yesterday at the county hospital from a skull fracture suffered when he was struck by a baseball bat while he was sitting in a swing in the municipal playgrounds at 1345 West 18th place on April 18.

The bat slipped from the hands of Charles Schmekel, 18 years old, when he attempted to hit a pitched ball.

PARIS, May 5.—(2:30 a. m.)—An attempt by the Continental Daily Mail, published in Paris, to print 500,000 copies and rush them to London by airplane this morning failed when the French printers' union served an ultimatum on the proprietors of the newspaper plant the Mail hoped to use, that they would strike if the paper was set or printed there.

(Copyright: 1926: By The Chicago Tribune.)
LONDON, May 5.—(1 a. m.)—Having "muddled through" the first 24 hours of the general strike with a few broken heads, much inconvenience, and inestimable financial losses, Great Britain grimly faced the second day of the struggle.

There were no indications of moves for peace. The government and the transport services went ahead vigorously with plans to defeat the millions of workers affiliated with the Trades Union congress who have "challenged parliamentary government."

"Government Must Win."
In the first issue of the government's "strike paper," the British Gazette, and the only newspaper published this morning in London, Prime Minister Baldwin's determination to see the fight through is announced in these words:

"This is a conflict between trades union leaders and parliament. It can only end in a decisive and unmistakable victory for parliament. This victory his majesty's government is definitely resolved to secure."

Bleeding Flares Up.
Serious disorders flared up during the afternoon and evening in the East London dock district. Police clubs sent twenty rioters to the hospitals. Fighting dock workers attempted to stop government trucks, which were moving food supplies. They succeeded in burning some of the loaded lorries before the police interfered.

Other gangs of roughs held up automobiles and lorries taking workers to their homes, forced hundreds of passengers to alight, and wrecked or burned the cars. Many women workers, facing walks of 5 or 10 miles to their homes, were among the victims.

Report Says Police Shoot.
The police were reported to have been forced to fire on an ugly mob who had beaten and injured a large number of truck drivers near Blackwall tunnel.

Attacks were also made on trucks distributing the British Gazette. Reports from Glasgow also told of some rioting there.

Strikers Volunteer as "Breakers."
According to a government press spokesman, the strike is completely effective, but there is little enthusiasm among the unions, except the miners' union. Numbers of bus men's unions stopped work as union men and are offering their services anew at the volunteers' recruiting stations. Recruits are failing in so far as the government cannot handle them.

About 16,000 members of the chemical trades in the London district, though ordered out, refused to obey, and reported for work as usual this morning.

In the London borough of Stepney the electricity supply was ordered cut off today by the socialist councilors. Reports from the London city hospital of current for X-ray work, but instead the service was returned to normal.

Government Commanders Banned.
Various parts of the country reported that the railroads have not stopped. At Grimsby the rail clerks today passed a resolution opposing the strike and threatening to withdraw from the union.

The London Northeastern railroad, in the north of England, reported that with the exception of sixty-four men

the whole staff is remaining solidly at work.

The London bus service will improve tomorrow with the government commandeering 500 buses tonight, which will be manned by volunteers, including many women who served during the war.

No troops so far have been used anywhere in the country to aid the local police.

A communique issued by the labor headquarters declared the strike was progressing favorably toward a complete paralysis of England, Scotland, and Wales. Ireland was very little affected.

Labor Chiefs Meet in Commons.

Members of the general council of the Trades Union congress met the miners' executive in the house of commons this evening to discuss the situation. They broke up after several hours without making any statement.

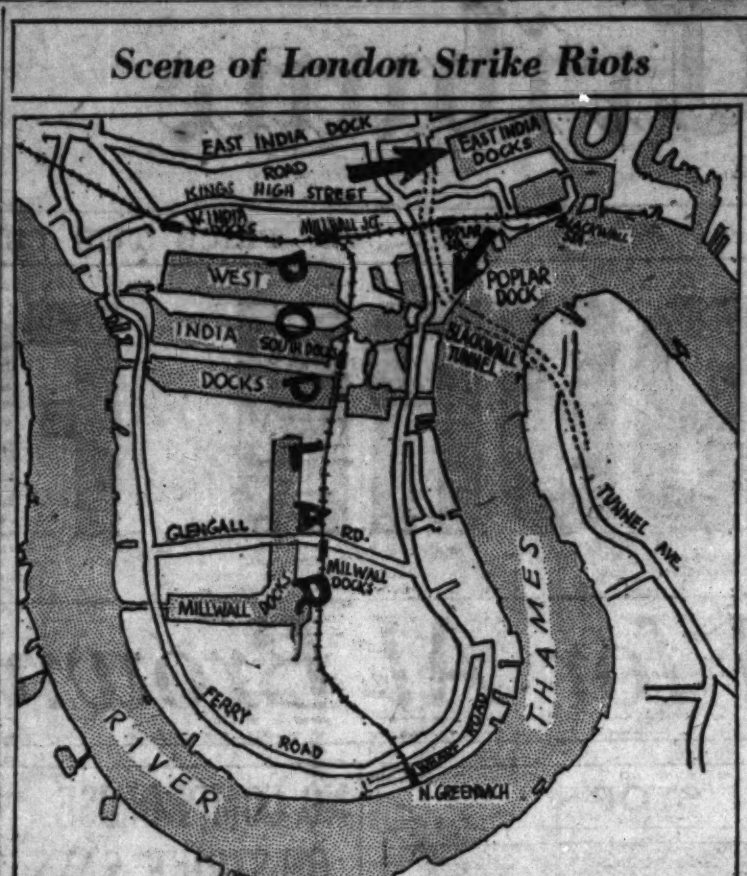

Another room of the house of commons was crowded by a meeting of Conservative members of parliament, at which Prime Minister Baldwin and Sir Arthur Steel-Maitland, minister of labor, explained the government's plans at some length. The proceedings, which were private, lasted more than an hour and one-half. It is understood that Mr. Baldwin made it perfectly plain that the government stands absolutely firm for a withdrawal of the general strike notice as the first condition to any attempt at fresh negotiations.

This view will be emphasized in tomorrow's debate in the house of commons on the emergency regulations, based on the king's decree virtually making Mr. Baldwin dictator. Labor has taken the position of seeking to arraign the government for a situation which has made necessary the regulations and will put down a number of amendments to the regulations.

Some Provincial Papers Appear.

Some provincial newspapers will appear tomorrow, notably the influential Yorkshire Post and Sheffield Telegraph, the printers for the latter returning after being assured by the management that they would be protected from victimization of the unions in their districts.

American travelers had their first taste of inconvenience from the Eng-

The general strike in Great Britain was marked yesterday by considerable rioting in London. The most serious outbreaks were in Poplar borough, long a stronghold of the radicals and the home of thousands of dock workers. The police were reported to have fired on rioters near Blackwall tunnel. At least twenty rioters were hurt in a clash with the police on the East India docks, where strikers attempted to load on government trucks.

fish strike when the Mauretania arrived at Southampton today from New York. Owing to the absence of regular dock workers the joint clerical staffs of the Cunard and White Star lines took off their coats and unloaded the passengers' luggage and the passengers were brought to London by a special fleet of autos.

The Jockey club, an important British racing authority, decided to abandon all race meetings.

Government Print Shop Closed.

Owing to the strike, the government

printing office is closed and parliament was without order papers when it met yesterday, and the questionnaire had to be curtailed because it was impossible to print questions. "Hansard," the British congressional record, also was not published today.

Early in the day all transport in and about London was stopped, but later a few trains were run on the railway suburban lines with volunteer crews. They were not enough, however, seriously to affect the situation.

The London workers traveled from the suburbs on foot, on bicycles, in motor cars, charabancs, and private buses, and the roads were congested as never before, in spite of the absence of busses, street cars, and delivery trucks. Food trains were allowed to run regularly and the food delivery is normal.

Mails are being delivered as far as possible by airplane. Continental boat-train services are cut off except the Batavier line from Rotterdam to London direct. Every effort is being made to increase the airplane passenger service. The prince of Wales used a specially chartered plane to travel to London from Paris.

Fears Days of Hunger Ahead.

While the feeling generally seems to be one of good natured annoyance with the inconvenience, what may happen

if the strike is prolonged and the people get hungry is another matter.

The government arrested S. Saklatvala, Parsee, communist member of parliament, charging him with making a seditious speech on Sunday. He was remanded for a week. He agreed not to make any speeches in the meantime.

It is rumored that many other arrests are contemplated and also a wholesale deportation of alien communists and others who may be thought dangerous. This can be done under the ordinary law by a mere home office order.

Parliament's Session Dull.

After yesterday's excitement, parliament was deadly dull. After curtailed questions, the house of commons went on with the discussion on passing the budget as if nothing unusual had happened. The laborites present decided not to take part in any of the debates except those on the strike, but not to obstruct business, so the passage of the budget bill is going much faster than had been expected.

Calm in Most of Provinces.

(Copyright: 1928: By the New York Times.)

LONDON, May 4.—Fairly satisfactory conditions prevail in the provinces, despite the general strike. From Liverpool it was reported that industry on the banks of the Mersey

river was nearly at a standstill. The ferries were still running, but train service virtually had been suspended. Thirty per cent of the Liverpool street cars were operated, but none ran in Birkenhead, across the Mersey from Liverpool. More than 5,000 volunteers recruited for service at the government recruiting offices in Liverpool today.

Six Penny Taxis Aid City.

Manchester reports that the six penny taxicab service arranged yesterday did much to replace the suspended street car service. No street cars or trains ran there today, but the gas and electricity supplies were maintained. Up to 4 o'clock this afternoon no untoward incidents had taken place in Lancashire towns.

At Northampton the union men, though they resent the strike order, generally obeyed it. At Birmingham everything was quiet. All the unions obeyed the strike order. The situation

at Coventry and Wolverhampton was similar to that at Birmingham.

Quiet Belins in Wales.

CARDIFF, Wales, May 4.—(AP)—The day passed quietly throughout South Wales. The Cardiff evening papers were published in their usual form.

Fail to Tie Up Bristol.

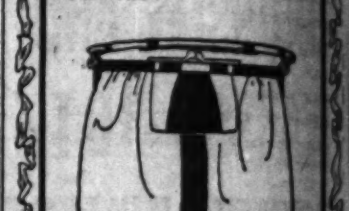

BRISTOL, England, May 4.—(AP)—Bristol suffered only slight inconvenience today on account of the general strike, as the tramway and buses were all running and the railways had partial services. Both morning and afternoon papers were issued, but the composers responded in the evening to the call for a strike, and the papers are expected to stop publication. Dock work has been suspended.

(Chicago Tribune Press Service.)
(Copyright, 1932, By The Chicago Tribune.)

LONDON, May 4.—London walked and used all other available means of transportation, ranging from roller skates to Rolls Royces, in its first contest with general strike conditions today.

Early this morning, legions of city workers began their hike to their offices from the suburbs, alongside the slow moving streams of automobiles, bicycles and horse drawn traffic.

It was a calm, good natured crowd in the caravans which brought out many strange types of conveyances. Thousands of bicycles, including several hundreds of the most ancient, rickshack models, were dusted off and rolled up for duty, with disastrous results to many of the riders whose cycling days were long past.

Horse Cabs Come Back.
Every automobile which could even make a bluff at running was called into service. Deceitful horse cabs came into their former glory. Cockneys on donkeys and in cars passed laughingly through the aristocratic crowds on the same plane as the glittering six horse tallhorses.

Today's spectacle was reminiscent of the Epsom Downs traffic on Derby day. The police performed a miracle in keeping the vast processions moving with a comparatively little delay. The crowds made a sort of game out of getting to work on time. Everybody was talking proudly about "how I got to the office."

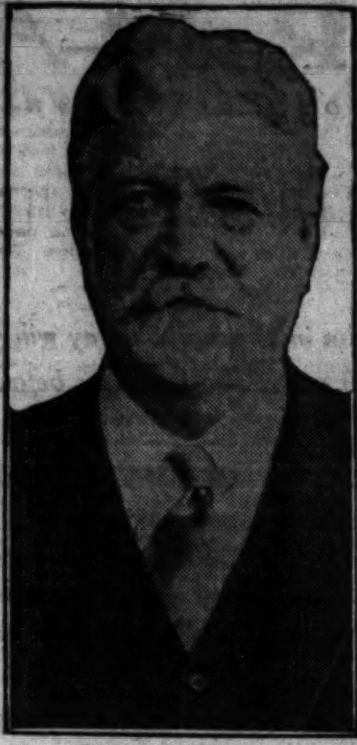

The Lyons chain restaurant reported that 1,800 of their 2,000 waitresses arrived home from work at the normal time of 9 p. m. by walking or getting lifts to their homes, some of which were three to ten miles away. The suburban centers proved to be shelter sanctuaries for hundreds of pretty girls, smilingly ramped the automobile drivers for lifts.

Business Men "Carry On."
The finest public spirit was shown by the sacrifices made by thousands in taking the most grueling long walks in order that London business would go on as usual. Numerous silk hatted, frock coated business gents took pride in walking like office boys for several miles in defiance of the strike. But the long trail homeward this evening was more difficult and the novelty may wear off if the strike lasts long.

In Hyde Park the scene of the greatest activity was the huge depot for the distribution of milk and food by a fleet of trucks manned by volunteers. A complete telephone system was installed in the trees, while gas mains for cooking were being laid. Fireworks were snatched at Charing Cross station, apparently awaiting an emergency call, but they spent a peaceful day.

Man Leaps Off Adams St.
Bridge; Saved by Policeman
Traffic Policeman D. J. McNamara rescued George Schang, 36 years old, 234 South Ashland avenue, from drowning yesterday after he had leaped into the river from the Adams street bridge. Schang, despite his apparent attempt to commit suicide, kept afloat until he reached Jackson boulevard. There Policeman McNamara, who had followed in a boat, drew him to shore. Schang was held for psychopathic examination.

FOR YOUR HOME

A campaign to put shade trees in the front yards of every home in Cook county will begin today, with the opening of Cook county's first Tree Planting week, set by a proclamation by Anton J. Cermak, president of the county board on Tuesday.

Two million young seedlings in the forest preserves have been grown during the last year. At Mr. Cermak's request the county board has authorized the distribution of as many as possible for transplanting. They include pines, elms, maples, and choice cherries.

A special effort will be made to get the cooperation of school children. "PUBS" CLOSE AS
LONDON STRIKE
CUTS OFF BEER

LONDON, May 4.—[U. N.]—The first twenty-four hours of the strike brought about a beer shortage. The famous Cheshire Cheese chop-house, known to all American tourists, closed an hour early tonight because it ran out of beer, an experience which has not occurred within the memory of its 100 year old parrot mascot which is such a familiar fixture of the place.

Other popular "pubs" are closing because the strike cut off delivery of their supplies.

PARIS, May 4.—Overcoming his aversion to flying, because the strike has paralyzed train service in England, the Prince of Wales proceeded to England by airplane this evening. He landed at Croydon aerodrome and motored into London. He arrived here from Biarritz, where he was vacationing, this morning. The prince cut short his vacation and made plans immediately to hurry home when news of the strike reached him.GREEN REFRAINS
FROM APPROVING
BRITISH STRIKEGrievances Are Justified,
A. F. of L. Head Says.(Chicago Tribune Press Service.)
Washington, D. C., May 4.—[Special.]—While sympathizing with grievances of British coal miners, William Green, president of the American Federation of Labor, in a statement today refrained from expressing approval of the general strike.

He showed concern over possible unfavorable effects upon the labor movement of a strike of such magnitude as that now in progress in Great Britain.

Government officials from President Coolidge down were keenly interested in the British situation. It was stated at the White House that the President sees no immediate ill effects upon American trade with Great Britain. It was pointed out that the bulk of trade is in foodstuffs, which it was assumed would continue to move.

Cable from Houghton.
The state department made public a cable from Ambassador Houghton at London reporting conditions and stating that "it is impossible to say whether the effect of this situation will be to force a renewal of negotiations within two or three days or will lead to a prolonged conflict."

Mr. Green in his statement said that the British strike "naturally has created a most grave situation, and one which causes a feeling of deep concern in the minds of all thinking people."

The great danger involved in such a strike is the possibility that the original grievances, which are in this case meritorious, may be lost sight of because of the charge that the general strike is a challenge to government, and to the existence of government," Mr. Green said. "The issues of the strike become obscured and the public mind becomes confused. Public opinion, in Great Britain, might support the workers in their demand for the redress of just grievances, whereas it would solidly support the government in its efforts to maintain control of the government."

Cites A. F. of L. Policy.
"The American Federation of Labor is strongly committed to the policy of collective bargaining, of wage contracts, and the observance of wage agreements. It has made its greatest progress through a religious observance of contract obligations. In my opinion the organizations affiliated with the American Federation of Labor will strictly adhere to such a program."

Mr. Green said that he realized that economic and industrial conditions in Great Britain differ from those in the United States.

ENGLAND DAILY
ABOUT \$20,000,000

LONDON, May 4.—It is yet too early to analyze the cost of the strike to the British nation. The total number of strikers is at present not known, but from the most reliable information available at the moment it may be computed that the strike is costing already from \$15,000,000 to \$20,000,000 daily, a sum equivalent to one-third of the nation's total average daily income. If the strike continues, it is estimated that this will rapidly rise to \$30,000,000 or \$40,000,000 daily.

Some parallel can be drawn from the great coal strike in 1921, which lasted fourteen weeks, at the end of which the country had 2,300,000 unemployed, of which one-half were miners, while another 1,100,000 workers were on half time. These figures were gauged from the total number of workers under the government's insurance scheme of 12,000,000.

The 1921 stoppage, it is estimated, cost the country \$1,750,000,000.

United States. He also said that it was customary for the workers in each country to determine their own policies. He pointed out that the American Federation of Labor is not affiliated with the International Federation of Trade Unions, with which the British trade unions are aligned.

"The American Federation of Labor believes the miners of Great Britain are justified in their demands that they be paid a decent living wage," said Mr. Green. "We believe their grievances are well founded and should be speedily redressed. We express the hope that those qualities of deliberation and judgment which have always characterized the British people in every crisis will so assert themselves as to bring about an immediate settlement of the causes of the strike and to avert the dire consequences with which the people of the nation are threatened."

CITY EMPLOYERS
OF CHILD LABOR
RAPPED IN COURT

Child labor is more generally employed in Chicago than at any time in the last fourteen years, Miss Gertrude Steessel, a state inspector, told Municipal Judge Joseph L. McCarthy yesterday.

Fruit and vegetable store owners are the worst offenders, she said, many of them employing boys to deliver packages at nights and forcing them to work fourteen to sixteen hours on Saturdays.

Her testimony was given in the case of James Mitnick, 4515 Clifton avenue, and Vance Frey, 640 Sheridan road. Both are 14 years old and have been working for an Atlantic and Pacific Tea company store at 3926 Broadway. They were told by the judge to obtain certificates and warned that even then would not permit them to work after 7 o'clock in the evening.

Soviet Russia Grins with
Joy as Britain Fights StrikeBY DONALD DAY.
(Chicago Tribune Press Service.)
(Copyright, 1932, By The Chicago Tribune.)

RIGA, Latvia, May 4.—The soviet government is delighted with the turn of events in England, according to dispatches from Moscow. A majority of the commissars are making several speeches daily to the workers, in which they announce the latest bulletins telegraphed from the soviet legation in London telling of the progress of the strike.

Commissar Stalin, addressing a mass meeting at one of the Moscow factories, said collections are being made throughout Russia to aid the British strikers win a victory. M. Stalin told his hearers that there was little likelihood of the strike in England resulting in a dictatorship of the proletariat such as Russia's, but the strike will result in strengthening the class feeling among the English workers, which will eventually bring them under the Communist influence.

Thousand of members of the English Communist party are working day and night, continued M. Stalin, agitating against former Prime Minister Ramsay MacDonald and other conservative labor leaders, whom M. Stalin called traitors to the labor class and social revolution.

Russia Asks World Boycott.
MOSCOW, May 4.—[U. N.]—The Red international has issued a proclamation signed by General Secretary Lomovsky and reading in part as follows: "The struggle has begun. Millions of the English proletariat have risen as one man against the exploiters."

"Facing the development of this gigantic struggle, when for the first time in British history class rises against class, all differences among the workers must be sunk. All workers, regardless of factions, must stand with our struggling brothers and give them full and unqualified aid."

"Not one ton of coal for England! All countries boycott British coal orders and refuse to deliver any foreign merchandise to England! Wage a merciless fight against strikebreakers!"

International Labor Strike Strike.
AMSTERDAM, May 4.—The secretary of the International Federation of Trades Unions states tonight that

the federation, embracing the trade unions of twenty-three countries and having at its disposal cash amounting to 200,000,000 Dutch guilders (about \$20,000,000) "strongly will support the general strike of the British Trades Union congress. The federation already has sent communications to the various national federations urging them to support British labor. The British strikers are believed to be able to hold out for four or five weeks on their own resources."

Canadiana Pledge Support.
(Chicago Tribune Press Service.)
Ottawa, Ont., May 4.—Canadian labor leaders tonight cabled the British strike leaders a pledge of the moral support of the workers of the Dominion. They announced in an official statement that if the strike was a long drawn out affair, the British strikers could rest assured that if Canadians were called on to respond financially the call would not fall on deaf ears, as thousands of Canadian workers fought in the trenches of Belgium and France in the world war with the men now striking on the other side of the Atlantic.French to Halt Coal for English.
(Chicago Tribune Press Service.)
PARIS, May 4.—The French miners' union today secured the support of the railway and dock workers for a boycott of all shipments of coal to England. The three unions agreed to strike if necessary.German Reds Ask World Strike.
BERLIN, May 4.—[U. N.]—The General Federation of Trade Unions has summoned its executive board to assemble tomorrow to decide on the course to be followed with regard to the British strike.

The nationalist organs are wrought up over the German Miners' Federation's promises to aid the British, claiming that during the Ruhr occupation the British seized the German markets and even supplied the German railways with coal rather than help the German miners. They declared international solidarity has always proven a myth so far as Germany is concerned.

The communist paper, Rote Fahne (Red Flag), captions its leading editorial, "The fight in England is our fight," and urges an international strike of all miners.

EVANSTON VOTES
MILK TEST LAW
LIKE BUNDESEN'S

Following the lead of Chicago, the city council of Evanston last night passed an ordinance requiring that all milk sold in the city be certified as from non-tuberculous cows.

The law was drawn by Health Commissioner Pollard on the same lines as the one presented to the Chicago council by Health Commissioner Bundesen. The board took under advisement all ordinance to pave and widen Dodge avenue and Ashbury avenue, at a total estimated cost of \$450,000. An ordinance of pave and widen Dwight avenue from Lee street to Chicago avenue was passed.

THE IMPERIAL "80" is Walter P. Chrysler's supreme effort—literally a car as fine as money can build.

You know the famous earlier Chrysler achievements—the amaze of their unprecedented performance, their extraordinary strength and durability, their fascinating grace of line and color, their astonishing roadability combined with luxurious roominess and compact construction.

The Imperial "80" is that same genius for originality and constructive forward thinking translated in terms of a larger, faster, more luxurious and more costly car—as fine as money can build. All we ask is that you drive the Imperial "80". Surely you owe it to yourself to give that consideration to this extraordinary car before you decide to buy any luxurious automobile.

SMALL'S PARDON BOARD FACES CRIME INQUIRY

(Continued from first page.)

Thomas Pflaum, since identified for several large robberies, and with a record of much shortened penitentiary terms.

Set Free, Then Kill.

Thomas Shupe, served part of a sentence, was given special consideration by the parole board, came out of jail and, after a short time, was identified in an \$80,000 holdup and is awaiting trial for a murder.

Frank McKelane and Ralph Sheldon, both incarcerated not so long ago behind the stone walls at Joliet, where they could do no harm, given all the benefits of the parole system as administered, and turned loose on Chicago, where they became engaged in the beer feud, first as partners and then as enemies, with the result that a dozen or more men have been killed.

Charles Bunworth, paroled after serving a small portion of a sentence for murder, committed numerous crimes, ending with the murder of a policeman and his own death.

Frank Hahn, formerly a policeman, had so many charges of robbery he pleaded guilty to one and was sent to the penitentiary, from whence he was speedily released on parole, only to be arrested with Irving Smith, another paroled convict, in the act of committing a holdup.

Charles Caruso, sent to Joliet for his part in a murder, sent forth a free man by the benefit of the parole board, now awaiting trial on charges of a series of bombings in a reign of terror among small business concerns.

Raymond Costello, who attacked and then killed a girl a few days after his much reduced prison term was over—since hanged.

7 HURT, 25 BRUISED WHEN TROLLEY HITS CITY TRUCK TRAILER

Seven street car passengers were slightly injured and twenty-five others bruised yesterday when a north bound Milwaukee avenue car collided with a trailer drawn by a city garbage truck at Lincoln street and Milwaukee avenue.

The injured are Mrs. Anna Green, 60 years old, 1555 Ravenswood avenue; Lorraine Benson, 19, of 1430 North Kedvale avenue; Irene Rhodes, 18, of 3456 Belmont avenue; Stella Moschinski, 48, of 2327 North Menard avenue; Victoria Vachon, 35, of 1280 Augusta street; Mrs. Mary Beckmeyer, 46, of 2121 Mozart street; Mrs. Mary McNeely, 22, of 1123 Nevada street.

Hitting a curbstone after he had swerved his automobile to avoid a collision, Ben Rubin, 47 years old, 615 North Dearborn street, was pinned beneath the car when it overturned at Wabash avenue and 57th street. His skull was fractured and he was probably internally injured.

No deaths caused by automobiles were reported. The toll for the year in Cook county remained 251.

He was freed from parole by a short period.

The list of paroles to be investigated may run to 100 or more, it was said. Those listed above are but only a few that have been called to the attention of the prosecutors.

Half Million Given for Clinic by Vanderbilts

New York, May 4.—(AP)—President Nicholas Murray Butler of Columbia university today announced the receipt of \$500,000 from Frederick W. Vanderbilt and Harold S. Vanderbilt. The money is to be used in rebuilding the Vanderbilt clinic at the new medical center. The clinic was established in 1886 by four brothers, Cornelius, William K., Frederick W., and George W. Vanderbilt. For forty years it has been maintained as a part of the university's medical and surgical work.

PLAN TO HANDLE BIG TRAFFIC OF CHURCH CONGRESS

On May 12 a committee headed by Superintendent George Donoghue of the South Parks system will confer on plans for handling the expected enormous increase in Chicago traffic during the Eucharistic congress, which meets here in June. Besides Mr. Donoghue the committee is composed of the Rev. M. E. Dorney, Capt. Thomas E. Richards of the South Parks police, St. Mayer, secretary of the police department, and representatives of the Chicago Surface Lines, the elevated lines, the Chicago Motor Coach company, Yellow Cab company, Illinois Central railroad, and the Chicago Motor club.

TAKE BENCH AND PROSECUTOR OUT OF POLITICS, PLEA

Complete divorcement of judges and the state's attorney from politics was urged yesterday by Superior Judge John F. McGorty in an address before the Ohio Society of Chicago at Hotel Sherman.

"The administration of criminal justice should be as far removed from politics as possible," Judge McGorty said. "Judges and the state's attorney should be nominated by petition and not by political parties."

"A state's attorney should be independent of any political group or faction, so that his official acts may possess no political inference."

"Judges should not be required to perform political functions, such as appointing south park commissioners or determining the number of employees in the fee offices of Cook county."

BLOW LID OFF IN GANG QUIZ, VOW OF CARLSTROM

Grand Jury to Delve Into
93 Rum War Murders.

(Picture on back page.)

Every one of the 93 gang murders committed in the county in the last two and a half years will come under the searching inquiry of the special grand jury. It was learned yesterday, when it became known that Assistant State's Attorney Eugene Sullivan and Tyrrell Richardson had been directed to marshal evidence and witnesses in every case.

With this broad field of investigation, covering the whole bloody history of the liquor traffic wars, Attorney General Carlstrom, directing head of the inquiry, plans to shatter the wall of silence that has sheltered gangsters from punishment.

The decision to pry for gang secrets in all the gang murders was reached after a conference in the state's attorney's office, attended by Attorney General Carlstrom, State's Attorney Crowe, Chief of Police Collins, and Sheriff Hoffman. Other secret plans by which the work of the special grand jury is to be moved into high gear were completed.

Carlstrom Promises Fireworks.

Mr. Carlstrom expressed confidence that great good will come out of the special grand jury's sessions.

"We have made some startling progress during the day," he declared as he left State's Attorney Crowe's office last evening. "I will not reveal the nature of our new evidence, because that would only serve to show our hand to the criminals involved. I can tell you, however, that the fireworks will begin when the special grand jury resumes its deliberations Thursday."

The attorney general held unworthy of comment reports that he had dropped the investigation. He is used to such tactics, he said.

Wolf Absent from Inquest.

As the officials held their council of war against the conditions which reached their climax in the murder of Prosecutor William H. McSwiggan, an inquest was held in the city hall by the coroner's jury of prominent citizens. A few new facts were presented, but in the main the testimony consisted of evidence already revealed in the police investigation.

Coroner Oscar Wolf did not appear at the inquest hearing. Nor was there any having been induced to act since former State's Attorney John J. Healy declined the special post offered him by Coroner Wolf.

At the conclusion of the day's session, brought to an early close because no more witnesses were available, Wyllys W. Baird, foreman of the jury, said that an adjournment would be taken until Friday morning so that more witnesses could be found. He seemed dissatisfied with the progress being made, but said the jury would do its utmost to get ahead.

New Theory in Inquest.

Among the highlights emphasized in the coroner's inquest were the following:

1. The jurors indicated a possible theory that the three murdered men—Prosecutor McSwiggan, James J. Doherty, a beer purveyor, and Thomas Duffy, a political worker—were killed by their own comrades, and that their companions later staged the shooting match in Cicero to direct suspicion from themselves.

2. Capt. John Stege, deputy chief of detectives, testified that Harry Madigan, owner of the saloon outside which the shooting affray occurred, had admitted to him that he bought real beer

at \$50 a keg from the murdered Doherty.

3. Madigan failed to appear at the inquest, and Deputy Coroner Charles F. Kennedy, declaring he had been subpoenaed, ordered a search for him.

4. The police theory that two men survived the battle was definitely corroborated by the testimony of Frank J. Misk, 321 Cass street, Westmont, who told of seeing five men on the ground outside the saloon after hearing the shooting. Two of them arose, put two of their companions in the car, and drove away, Misk said.

Delve Into Beer Traffic.

The jurors showed an intention of delving into the freedom of Cicero's beer joints. Joseph E. Klenha, president of the village board, and all the Cicero policemen who testified were asked about the supervision over saloons.

Klenha said there was no closing hour, but his policemen said they shut all the places at 1 o'clock sharp. Then Policeman Julius Klavinski blurted out

WEIL CASE TO JURY; KID FAILS TO MAKE PLEA

Federal Judge James H. Wilkeson yesterday instructed the jury which has been hearing the government case against Joseph (Yellow Kid) Weil, J. B. Watson, and Thomas Kerwin, to return a sealed verdict in the event a decision is reached before 10 o'clock this morning.

Weil and his co-defendants have been on trial for four days on charges of possessing 300,000 stolen 2 cent stamps and \$5,000 in stolen bonds.

Weil sought to address the jury in his own behalf during the closing arguments but was denied permission by the court, who ordered that the Kid first would have to dismiss his attorney. Weil didn't care to do this, he said.

UNION BANK OF CHICAGO

Our 21st Anniversary

IN MAY, 1905, the Union Bank of Chicago was organized. Now, on the anniversary which marks the attainment of our majority, we have real occasion for rejoicing. We have enjoyed an unusual growth during the past five years and are at the threshold of even greater days.

With the increased capital—now a Million Dollars—and the added strength contributed by our Surplus and Undivided Profits of over a Million Dollars, we are more than ever in a position to handle our share of Chicago's commercial banking business.

While we are in a position to serve competently both large and small business, the bank is not so large but that its customers receive personal attention and full appreciation for the business they bring.

We extend to you a hearty invitation to visit us during our Anniversary month and to join in our celebration so that we may show you our willingness to serve.

Senators Flee When Rum
Debate Opens.

BY JAMES O'DONNELL BENNETT.
(Chicago Tribune Press Service.)

Washington, D. C., May 4.—(Special.)—Speeches for and against prohibition consumed three-fifths of the senate's time today and frequently almost emptied the chamber.

At one period of the oratory Senators Fernald of Maine, La Follette of Wisconsin, and Watson of Indiana were the only auditors holding the fort on the Republican side of the chamber, while Cope land of New York, Heflin of Alabama, Jones of New Mexico, and Neely of West Virginia were carrying the burden of respectful attention on the Democratic side.

The other lawmakers enjoying good health—nearly ninety—were hidden in the cloak rooms or in their offices, whence they made occasional forced marches to answer to their names at the jingle of the quorum bells.

The significance of this almost un-

known alcoholism is that the senate fears the dynamite in the subject of prohibition whether considered with a dry or a moist eye and dreads a speech on it.

But Senator Bruce (Dem., Md.) will not let the topic rest. Today he led the contention, challenging the dries to come into the open on the question of a national referendum on modification of the Volstead act.

"We welcome," he said, "such a contest of strength anywhere at any time, for we believe that prohibition is the prolific parent of crime, of abuses and of scandal. Let the dries enter the lists against us! We have not the slightest fear what the outcome will be."

Says Dries Fear Vote.

"That fear is theirs. They are showing it now by their mustering of their forces, including the Anti-Saloon league and its ramifications, to induce Gov. Smith to veto legislative

enactment for a referendum on modification in the state of New York at the annual elections. They even threaten injunctions to prevent public officers from holding that referendum."

Senator Ferris (Dem., Mich.) led off in today's forenoon with 5,000 words of which the sentence was repeated by the senator's question, "Can the American people knowingly adopt any policy that has a distinct tendency to lower the health and vigor of the American people?"

Go Back to Boyhood.

Both Senators Ferris and Bruce went back to boyhood's happy days for experiences to point the diametrically opposed morals of their remarks.

"Come with me, Mr. President," appealed the venerable Ferris, long a school master, to Vice President Dawes. "Come with me, sir, to the hill farm in Tioga county, New York, where I was a boy sixty years or

more ago. During haying and harvesting time father was obliged to hire several helpers and they would ask my father, 'Do you furnish good whisky to your helpers regularly?'"

"Now father's instructions to me were, 'Bring the jug into the hay field at 10 o'clock and give to every man whatever he sees fit to drink. Then hide the jug. At 3 o'clock bring forth the jug and furnish the men with more whisky.'"

Find Moral in Jug.

Father, Senator Ferris, also acknowledged, "never failed" to serve the visiting preacher with a drink, and the moral which the son today drew from his boyhood observations was this:

"There was aroused in me a whole some fear of the consequences of using

whisky as it was then used. I soon learned that among the young people at dances and celebrations drunkenness was frequent. I decided to let the stuff alone. Its use, as I saw it, was fraught with danger."

In rebuttal Senator Bruce bade the patient Dawes come with him to his happy boyhood home in old Virginia.

Had Daily Julep.

"Father," said the Baltimore wet-tint, "had six sons. And he drank a mint julep every day of his life the year round—grew mint in his green house so that he could have his mint julep in the winter time. And always there was a decanter of whisky in his sideboard, and on his table a bottle of wine."

But no more temperate man ever existed, and his six sons, whatever their other faults may have been,

never were intemperate men. In my youth I never saw young people under the influence of liquor. But today what do I see, what do I learn? I learn from records kept by the police department of this city that since prohibition drunkenness among young people has increased 500 per cent!"

Quite baffled by testimonies so contradictory and reminiscences so at variance, Vice President Dawes surrendered the chair to a senator—that being one of his happy privileges—and retired to the inner gilded chamber, which is his, by right of office, to catch up on his day's mail.

BONDS STOLEN FROM TRUNK.

Breaking into a trunk in the basement of the Foster house on North-western university campus, thieves yesterday stole three \$100 bonds from John Brehm, who is janitor of Hinman house, another campus building.

For a cigarette of such high quality
who wouldn't pay a few cents more?

BRITISH TO AID IN STAMPING OUT RUM SMUGGLING

Andrews Will Visit London
to Get New Treaty.

Washington, D. C., May 4.—(Special.)—British aid in stamping out the rum traffic between England and the United States is offered in official memoranda made public by the state department today.

The department announced that in response to an invitation from Great Britain Gen. Lincoln C. Andrews, chief prohibition enforcement officer, and other American officials will go to England May 22 for a conference with British officials.

It is understood that Gen. Andrews hopes to strengthen the rum treaty between Great Britain and this government so as to effectually stop all liquor smuggling from that source into the United States. In making its offer, the British government asserted it would render the United States "such assistance as lies in its power" in the fight to stop smuggling.

In their memoranda the British government announced it would grant United States coast guard cutters and lighters to enter islands in the Bahamas and obtain information there concerning rum ships. It was also announced that the British government was prepared to remove liquor smuggling ships from British registry upon production of reasonably good evidence that the vessel concerned is really owned or controlled in America. The British government has also asked upon registrars of shipping in

THE SETTLEMENT WITH FRANCE.

The opposition to the French debt settlement is already laying plans to defeat it by delay in the senate. Senator Pat Harrison of Mississippi asked a public hearing at which the terms agreed to could be attacked and defended. Senator Smoot, chairman of the committee and a member of the commission which negotiated the settlement, would make no promises. Much would depend, he said, upon the action of the ways and means committee of the house which would have the first opportunity to study the bill. He did not want to delay ratification needlessly.

The French settlement is the last of the important ones to be negotiated. The Italian and Belgian settlements among others have been approved by congress at this session. The French settlement is of exactly the same sort as the others, except that the French have agreed to pay 50 percent of what they owe while the Italians are going to pay back only a fourth. The settlements are both based upon the principle of capacity to pay. The Italian adjustment was followed by a loan to Italy of \$100,000,000 at a high rate of interest and a neat discount for Wall street. Reports on the financial pages indicate that the French are also seeking loans and will probably get them on much the same terms as Italy received from the American bankers.

We do not see how the French settlement can be rejected by the same senate which has already ratified the Italian agreement. Everything that can be said against the terms to France could have been said against the terms to Italy. If the principle of capacity to pay is an unsound one, the fact remains that it was sound enough for an adjustment of Italy's \$2,000,000,000 debt. If the capacity of a nation to borrow from private bankers is an indication of capacity to repay previous loans, then the Italian settlement never should have been accepted. If America should be guided in debt adjustments by a desire to promote European peace, then France should receive treatment at least as friendly as that accorded the Italy of Mussolini. If the basis of settlement is the military contribution of the debtor to the allied victory, then France is plainly entitled to treatment far more favorable than that accorded any other great nation.

The settlement with France, considered by itself, is not beyond criticism. It is beyond criticism considered as it must be in relation to the other settlements. Nothing is gained by attempts to delay ratification. The opposition is objecting merely because an opportunity has presented itself and not because a protest is justified. No opposition which adopts such a policy can hope to retain a reputation for integrity and genuine interest in the public welfare.

ROYAL BLOOD.

Carol Hohenhausen, who used to be crown prince of Roumania, failed to keep an appointment the other day at a private school in the suburbs of Paris. Waiting for him there were Zizi Lambrino, to whom he was married for a time, and their son, who is now 6 years old. Carol was to have gone to the school. It was explained, to assure the principal that the boy had a respectable father and was, so to say, only a little bit illegitimate. The schoolmaster wouldn't take the boy without a look at the father, accordingly, Zizi's son will continue to get his education from a private tutor.

Fashions change. There was a time, and that not so many years ago, when the illegitimate children of royalty had a higher standing socially than most of the nobility. They were welcome in any company. The illegitimate children of the nobility rated pretty well, too. The prefix Fitz to a man's name often, if not usually, meant illegitimacy. That was the way the Fitzroys, who were the illegitimate sons of the king, got their names, and their names admitted them to any company. Nowadays the illegitimate children of royalty are no better than any other children, illegitimate or legitimate, and, indeed, not as good.

As a matter of fact, Zizi's boy doesn't have to call himself Hohenhausen. He was born honestly enough. Zizi's marriage was valid and it was annulled for reasons of state. We believe the primmest of parents would have had no objection to allowing their children to associate with Zizi's if it had not been for the social undesirability of the boy's father.

blood in these days are presumed to be improper companions for respectable folk; the burden of proof is upon them.

RADIO CONTROL.

Another bill has been introduced in the senate intended to place control of radio broadcasting in the hands of a commission. Four principal bills are now under consideration by the senate committee on interstate commerce. Three of them favor control by a commission while the fourth favors control by the secretary of commerce, as at present.

The need for action at this session is emphasized by the recent decision by Judge Wilkerson in the WJAZ case. That decision cast doubt upon the power of any federal agency under the present law to exercise an effective control over the use of the ether. The law under which the department of commerce has been issuing licenses to broadcasters was passed in 1912, before the era of program broadcasting.

Those who favor commission control have their case almost entirely upon the argument that the radio is too important a means of communication to intrust to one man appointed by the President. They prefer three. They want a radio commission like the tariff commission, with deputies and clerks and delays. They do not accept the fact that the control of radio is still nothing more than an administrative function of government and therefore ought to be placed as it was in 1912 in the appropriate government department. If acts of the department are unjust, relief can always be found in the courts.

Secretary Hoover's administration of radio has been admirable. It is generally agreed. His department has established sound principles which have served to protect the radio public as well as the radio broadcasters. Under his administration the radio industry in this country has flourished as it has nowhere else in the world. Congress is now threatening to throw all that Mr. Hoover has accomplished into the discard and create a new agency, to establish new principles and new precedents. Radio listeners, radio broadcasters and radio manufacturers are likely to lose by the exchange.

YES, WE DO NOT UNDERSTAND.

In a recent editorial which we reprinted in part in THE TRIBUNE, the Democrat of Manchester, Ia., replied to our arguments against the Cummins compulsory railroad consolidation bill. The Democrat says we do not understand the problem. It declared that we overlooked several facts, chief among them that "freight rates must be uniform."

Perhaps the Democrat will believe us when we say that we have not overlooked the points it so carefully itemized. Perhaps the Democrat will compromise with us if we say they in Iowa can have compulsory consolidation if they so strenuously desire it, but many in Illinois will not willingly give up their advantageous position and assume the rate burdens of sections geographically less fortunate.

Freight rates are not uniform. Government supervision has not yet succeeded in making them so. They follow in general the geographical complexion of the various rate making territories into which the country is divided. It is a heritage of the days before state and federal control, when rates were founded on operating cost. Though government supervision has sought to level rates as much as possible it has succeeded only partially. It still costs less to ship across the flat Iowa country than up and down the grades of the Rockies.

But Iowa, it seems, if the voice of the Democrat is the popular voice, wants to give up this advantage. It would like to have the higher mountain rates of the St. Paul, perhaps, spread on top of the lower Iowa rates of the Burlington by means of enforced consolidation, thus making all uniform and making the Iowa farmer, in his level territory, where cost of construction and operation is low, pay part of the high cost of trans mountain shipping.

The Democrat says we do not understand several things about this argument. We admit we do not understand the Democrat.

SMOKE PREVENTION.

Dr. Herman N. Bundeisen, Chicago's commissioner of health, is combating with his duty of enforcing the anti-smoke ordinance the more onerous task of instructing building owners and engineers in the proper methods of constructing their boilers so that their chimneys will not smoke.

Hand in hand with enforcement there must be carried out such an educative program. Dr. Bundeisen is to be thanked for assuming the burden. Law and law enforcement without parallel education demonstrating the need of the law and the ways to obey it lead only to more flagrant violations. Chicago has enough of a boiler problem now without being forced to deal with boiler smoke violations.

THE TRIBUNE is proud of the fact that the chimney of its Tower never smokes. The credit is due to the architects and contractors who planned and installed the furnaces and boilers, the makers who built them, and to Mr. Holmes Onderdonk, manager of the Tower. In the hope that it may assist in the campaign to eliminate smoke through instruction and education, THE TRIBUNE will be glad to explain to any one interested the methods by which it runs its smokeless heating plant. Mr. Onderdonk will be glad to give what information he can to any one seeking it.

HELP THE FARMER GET OUT OF DEBT.
(Urbana (Ill.) Courier.)

If the Republican administration has nothing better to offer the farmers of the Midwest than the sort of relief contemplated by the Tinscher bill, then there is some another parting of the ways. The principal function of the Tinscher bill is to make it easier for a farmer to get into debt. What the farmer wants is a device to get him out of debt.

UNDERNOURISHED CHILDREN.

NUTRITION classes in schools have been in rather troubled waters for several years. One reason for this is the reaction against the enthusiasm under which they were started. They looked so good that everybody hopped to it. Naturally, something of a Katsenjammer. Unfortunately, nobody started early in the game to carefully weigh the evidence and thereby keep the ship on its keel. Doing just that thing has been the task which Kaiser, Norton and Walker assumed at Rochester. They have been working on the problem for about four years and answers were:

1. Is malnutrition of school children of considerable importance? If so, what is the best method of getting and holding results?

2. Some of the conditions at which they arrived are:

3. A large proportion of the school children are undernourished.

4. Remedial physical defects are responsible for about one-half of the undernourishment.

5. In bringing undernourished children up to weight the best results follow curtailing their activities and seeing that they get more sleep.

6. In overcoming malnutrition the immediate effect of a course of instruction in a nutrition class are most encouraging; the ultimate results are not so encouraging.

7. Attendance on a nutrition class helps about four-fifths of the children who attend.

8. The children in similar conditions who are helped in other ways do not fare so well. Only about one-third are greatly improved by what is done for them. From this standpoint the nutrition class makes good. But not all the gains made are held.

9. The best results in a nutrition class come to the badly undernourished children—those more than ten per cent underweight. Physical defects do not necessarily cause underweight.

10. The best results of the nutrition class in securing cooperation between the parents, the pupils, and the teachers. A nutrition class in a school is of service in interesting the entire school body in nutrition. Nutrition classes alone will

not solve the undernourishment problem of a school.

Of the gains made by the pupils in the nutrition classes about 40 per cent are eventually lost; but the 60 per cent gain which remains after subtracting the losses is a record of improvement which is better than that shown by any other method.

1. What causes cataracts?

2. Once started, can they be checked?

3. Is operation the only means of cure?

4. Is operation generally successful?

5. Among the causes are: Heat, glare, dust, old age and diabetes.

6. If you can avoid or remove the cause you can generally stay the progress of a cataract.

ANOTHER FAIRY TALE

(For Roy.)

Oh, a princess once lived in a little brown cottage.

And geraniums grew on the sill;

And a very white rose drifted over the chimney

Like a cloud on an amber hill.

Oh, the princess' heart was a Japanese plum tree,

With red leaves spread heavy with cream;

And the princess' dreams were little gray feathers

Winnowing down a green stream.

And the princess' songs were a tiny white window

Which now lay heaped on the grass.

For one night when a moon-song came singing too

slowly,

She impatiently broke the glass.

There through the tulips the songs sang wildly;

Then shuddering heavily, were mute. . . .

And the shaggy princess with dripping fingers

Stacked them up like a fairy loot.

One day Prince One-of-the-crowd sent a message,

"Oh, please, why sing you no more?"

What spell, what enchantment, what deed, what de-

creting

"Has stifled the singing of yore?"

"Kind prince," wrote the princess, "my tiny white

window

Is a chipped, sorry echo of songs;

And the one who will mend it, who will put it to-

gether,

Receives the reward that belongs."

... What was the reward—and did the prince mend

it—

I'm sorry, I wasn't told. . . . still

A princess did live in a little brown cottage,

And geraniums grew on the sill.

FLOOD OF TALK GREETES 3 FARM BILLS IN HOUSE

Haugen Measure Finds
Friends and Foes.

BY ARTHUR SEARS HENNING

Washington, D. C., May 4.—[Special.]—A torrent of oratory on the floor of agriculture and how to cure them was heard in the house this afternoon when that body began consideration of the three farm relief measures.

Under the rule adopted the flood of talk will continue four days, at which time the house will consider in detail the Haugen surplus control bill and a 11 amendments thereto. When that is concluded it will be in order to substitute either the Tinscher bill for government loans to regulate production and marketing or the Arwell bill to form regional marketing agencies.

The prospect is that the house will pass either the Haugen or the Tinscher bill, the former being favored by the corn belt committee and many farm organizations, the latter being backed by the administration.

The senate will take up farm relief legislation after the house passes the bill. The corn belt price raising bill is now pending in the senate as a rider to the administration cooperative marketing bill which the house passed several months ago.

Representative Haugen [Rep., Ia.], chairman of the house committee on

agriculture, started the debate today with a demand for the passage of his bill, which he described as a "100 per cent farmers' proposition."

Representative Fort [Rep., N. J.], followed with an attack on the Haugen bill as a price fixing scheme and a subsidy to the farmer. He pointed to the experience of Great Britain in its present crisis as a result of subsidizing an industry.

Representative Pou [Dem., N. C.] described the Haugen bill as "a gold brick" so far as southern cotton farmers are concerned, but gave it as his opinion that it would receive more votes in the house than either of the other two bills. However, he indicated a belief that the President would veto it.

"This whole situation," Mr. Pou said, "arose out of the policy of one political party in parceling out favors at the expense of the treasury of all the people. If I am correct in my appraisal the one of these three particular measures which is going to get the largest vote does not stand any more chance of becoming a law than I have of being elected governor of Kentucky."

Asked for Explanation.
Representative Quinn [Dem., Miss.] asked him to explain that statement.
"I am undertaking the role of prophet—I am prophesying," Mr. Pou said. "I do not believe the gentleman himself thinks that the Haugen bill stands a chance of becoming a law if it is passed by the house and senate."

"Why couldn't it?" persisted Mr. Quinn. "I am going to vote for that bill and put it on the President's shoulders."

Representative Pou said that while the Haugen bill might boost the price of wheat and corn he failed to see how it could do so for cotton inasmuch as there is no duty on cotton. He pointed out that prices are supposed to be stabilized under the bill at the world price plus the tariff and transportation costs.
"What we want to do is to make the protective tariff effective for the farmers," said Representative Haugen. Representative Fort said that the Haugen bill proposes a definite price fixing scheme, which he said "proposes a subsidy for the first two years and thereafter a tax upon the farmer. It is very timely that this house should be discussing this week a subsidy bill with the example of Great Britain and the effects of her subsidy."

NEW YORK

PLASTER STRIKE SET FOR FRIDAY; ALLSTANDINGPAT

Builders Hope to Keep
Row from Spreading.

The threatened strike of plasterers, set for Friday morning, has united the two groups of employers, which for some time have been divided, in opposition to the union's demand for a basic wage of \$1.75 an hour, instead of the present \$1.50.

The union plasterers will meet tonight in Temple hall, Van Buren street and Marshfield avenue, but nothing is expected to develop there to avert the strike. The two associations of employers that rejected the demands are the Contracting Plasterers and the Employing Plasterers' association. Edward J. McGovern, international president of the Journeymen Plasterers' union, who was here for the latter part of the negotiations, has left Chicago. It was pointed out that with only about 3,500 in the plasterers' union and the large amount of building in the last few years, the average week's pay has been higher than a scale of \$1.75 an hour.

The consensus of opinion expressed yesterday by architects, general contractors and employing plasterers indicates that the scheduled walkout will last anywhere from one day to three weeks.

Don't Expect Strike's Spread.
Building contractors said the strike will be confined to plasterers and will not spread to any of the other building trades. It was added that non-union plasterers will be used only on certain jobs. Their general employment is opposed by large employers of plasterers, who regard them as inefficient.

M. P. Riley, head of the Contracting

Plasterers' association, said the employers regard the controversy as a "family affair."

Of the 3,500 in the Plasterers' union about 1,500 were added, it was said yesterday, during the last two months since the Florida building boom subsided.

How They Are Employed.
Of the total membership the Contracting Plasterers' association hires about 1,500 and the Employing Plasterers' association about 600, the other 700 being divided among the unorganized employing plasterers.

With the increase in membership the union has added two more positions for business agents. There are 19 candidates to date. Many of these applicants, it was said, are pushing the demand for a higher minimum rate of pay.

Mrs. Anna Wosonoff, 27, of 1512 North Hamilton avenue, was struck yesterday by a street car while at North and Hamilton avenues. At the Karlov hospital it was said she might have concussion of the brain.

It was announced yesterday by Howard F. Gillette, chairman of arrangements.

In addition to the Englishman, Walter Head of Omaha, Neb., president of the Boy Scouts of America, and James E. West, chief Scout executive of the United States, will participate in the ceremony. All the boys will parade past the reviewing stand.

The 49th State

The 49th State is a great commonwealth that spreads out 150 miles in every direction from St. Louis, its Capital. It is a 20-Billion-Dollar Area in purchasing power. One of America's greatest markets. Population more than 5,000,000. 372 towns of more than 1,000 population. Wealth based on a wider variety of natural resources and industry than any other state can show. And The Globe-Democrat, The Newspaper of The 49th State, covers this market as no other paper even claims to do.

HAYMARKET RIOT HEROES HONORED AT CARR DINNER

Praised for Death Blow
They Struck Anarchy.

(Picture on back page.)

Heroism of the 170 policemen who forty years ago throttled anarchy in Chicago was extolled last night at a dinner given in honor of the survivors of the Haymarket riots by County Treasurer Patrick J. Carr. Two scores of the gray haired veterans of the battle with the bomb throwers in which their comrades were killed and wounded gathered in the foyer of the Palmer house under the leadership of Frank P. Tyrrell, former captain of west park police and president of their association, and had the time of their lives.

Treasurer Carr, the host, told them how former Capt. John Gibbons had suggested to him that he entertain the veterans.

"Nothing Too Good for Them."

"I told him he could write his own ticket, for Chicagoans of today could not do too much for the men who checked anarchy when it threatened our city," said Mr. Carr. "I'm not going to take your time in making a speech. You know what you did and we want you to know that we appreciate it. There isn't anything too good for the heroes that stood between the city and lawlessness."

James Keesley, former owner and publisher of the Chicago Herald, went

into more detail. He read extracts from editorials in the Arbeiter-Zeitung, an anarchist publication of 1884 which extolled the use of dynamite.

"There is more devilish, fiendish ingenuity, more blood thirstiness, more disregard for law shown in these extracts than in any I have run across," Mr. Keesley said. "Such publications would not be permitted today, not for a moment."

"I think that one of the reasons that it would be impossible to print stuff of the kind that I have read is that you did your duty so nobly on the night of May 4, 1886."

Anarchy Made Unprofitable.

"You took the first step toward choking anarchy on that day. You made it unpopular, unprofitable, and perilous to preach the kind of doctrine that was preached prior to the evening when you, in response to an order and the call of duty, went to Haymar-

ket Square and as an organized force gave lives and limbs and health in the performance of your duty. You were the attacking force then, because, though the bomb throwers attacked you, you were assailing anarchy as the emissaries of law and order. You did nobly and made a red letter mark in American history."

Richard Henry Little, conductor of the Line o' Type column of The Tribune, told stories and praised the veterans and County Treasurer Carr.

Italian Troops Kill Many in Battle with Tribesmen

ROME, May 4.—(AP)—Another victory for the Italian colonial troops in Tripolitania was reported today. East of Cadames, a column of troops attacked raiding Mehalha tribesmen and dispersed them. The rebels left many dead, including a chief.

SEVEN IN FAMILY PERISH AS FIRE DESTROYS HOME

Belleville, Ill., May 4.—(AP)—Seven members of a poverty stricken family were burned to death today in a fire which destroyed their three room dwelling.

The dead are: John Haas, 48, a coal miner; his four children, and two children of his wife by a former marriage. The mother, her oldest son, Morton Malone, 30, and two months old baby, Oliver, who escaped, are in the hospital suffering from burns. Doubt was expressed as to Mrs. Haas' chance for recovery.

Mrs. Haas said her husband per-

ished in an effort to warn the children after he had assisted her and the baby from the house.

Business Section Burns.

Murphysboro, Ill., May 4.—(Special.)—The entire business section and several dwellings at Wolf Lake, twenty miles southwest of Murphysboro, were destroyed by fire early this morning. The loss is estimated at \$119,000. The flames were fought by a bucket brigade, but it was soon beyond control.

\$7,000 RAIL IN TAXI THEFT.
Garron "Buck" Kuehl, son of Fred Kuehl, owner of the Biens hotel, 600 Division parkway, was granted a continuance until May 18 when he was arraigned yesterday in Town Hall court on the charge of stealing a taxi-cab. His bonds were fixed at \$5,000. Bonds of \$2,000 were fixed for Joseph McCauley, 225 Dale avenue, his companion.

No. C-10. A de luxe model in gray or white. Porcelain throughout. Specially designed for Copeland refrigeration unit. Interior automatically illuminated when door is open. Ice water chamber with 3-way valve for city or filtered water connection. Cubic contents 10.4 cubic feet—ample capacity for family of six.

We combed the country for the best— and found it in the Copeland

LONG before it had an identity, the Cusack Home Utilities Company had an ideal—quality. Fixed in the minds of the company's organizers and present heads was an unalterable belief in the eventual economy of the best. Another company that had borne their name had won to leadership through setting the standards of its field—what had been done before could surely be done again, and is being done. . . . Holding rigidly to its ideal, the Cusack Home Utilities Company conducted exhaustive tests in the entire field of home electric refrigeration before agreeing to represent the product which these tests convinced them was the best—Copeland Electric Refrigeration.

Designed by Pioneer Leaders of the Industry

The chief factor in our decision to select Copeland was the fundamental importance of its great quality. The men who designed Copeland and who today are building it, who are holding steadfastly to their original determination to attain leadership and never give it up—are, all of them, men who were first in the field. No one can excel their experience—few can match it. They have wrestled with every problem the industry has ever offered, and the Copeland is a symbol of their triumph over them all.

Now You Can Safely Dispense with Delivered Ice

You can have Copeland Electric Refrigeration in your home with full assurance of its practicability. A Copeland installed in your home, whether house or apartment, can be relied on for complete freedom from every annoyance of delivered ice—missed deliveries, muddy floors, food spoiled by the decreasing efficiency of melting ice—all the things that electrical refrigeration should free you from, to be worth

while, are done away with absolutely by the Copeland. Dry, cold air, maintained at a constant temperature of less than 50° with the lowest possible efficient operating cost, is absolutely assured to every Copeland owner. Your risk no unwitting co-operation in an uncompleted experiment when you buy a Copeland.

The Cusack Payment Plan Is Convenient for All

A payment plan that differs from the customary arrangement, with the difference to the buyer's advantage, brings the Copeland within reach of all. Copeland quality prohibits any advantage in price, but assures by far the greatest value, the safest investment possible, in home electric refrigeration.

See the Many Models at Our Beautiful Display Room

Summer and the ice-supply question are nearly with us. It's time now to investigate the Copeland. Come to our display room this week—today—and settle the question for all time.

most bitter political fights in the history of the county, in which the prosecuting attorneyship was the principal issue, eclipsing the senatorial and congressional campaigns here.

Attack Bremer Regime.
Regular Republicans attacked August A. Bremer, present prosecuting attorney, for an alleged lax administration of his office. Last spring Bremer was assailed in a scathing grand jury report following an investigation of his office.

In the primary Bremer had the support of the Klan faction and Oliver Starr of Gary, former chairman of the Lake county executive committee,

GIVE CROISSANTANIA LAND DEVELOPMENT FRESH FINANCIAL PEP

Miami, Fla., May 4.—(Special.)—Re-financing and reorganization of the Croissantania development at Boca Raton was announced today by Dwight J. Anderson, also of Chicago, now in charge of operations of the subdivision.

More than ninety-five per cent of the financial obligations of the Croissantania have been paid, Mr. Anderson said today, and the balance will be cleared up within a week.

G. Frank Croissant of Chicago, who founded the 2,400 acres development known as Croissantania, is in Miami.

headed the regular Republican slate. With Starr were William J. Fulton, former mayor of Gary, a candidate for commissioner; Benjamin Strong, the present sheriff, and H. K. Groves of East Chicago, candidate for county treasurer.

Indications are that all have been nominated. Lake county is heavily Republican and nomination is assurance of election. Police officials throughout the county, and the sheriff's office had prepared for unusual election day disturbances, but generally the day was quiet. Several minor disturbances were reported in Gary, but only one arrest was reported.

HAMMOND GETS WORLD TRIBUTE ON PASSING BY 71

New York, May 4.—(Special.)—Scores of messages from prominent persons here and abroad were received by John Hays Hammond today, congratulating him on his 71st birthday.

JOHN HAYS HAMMOND.
(Moffett Photo.)

His birthday was on March 31, but because of his being abroad it was not celebrated until today.

President Coolidge sent the following message:

"It is good to know that while you have passed the biblical three score and ten, you are still in the enjoyment of good health and able to con-

tinue those public services which have so distinguished your career. For the future years hold for you peace and happiness."

Mr. Hammond said he considered he had made a fairly good record in reaching the age of 71, with his mental and physical faculties unimpaired, but in comparison with Chamney Depew, who recently celebrated his 92d birthday, he said he "felt like a pikar."

High School Cadet Is Killed Playing with Bayonet

Ogden, Utah, May 4.—(AP)—William Lloyd Parker, 17, junior in the Ogden High school and a member of the cadet battalion of the school, is dead, with a bayonet wound in the heart. While awaiting orders to proceed to the drill grounds yesterday, Parker and Grobert Woods, another junior, made a number of playful passes at each other with their fixed bayonets. Parker received a wound in the chest.

BLACKMAIL PLOT AIMED AT WIDOW OF GOV. GUILD

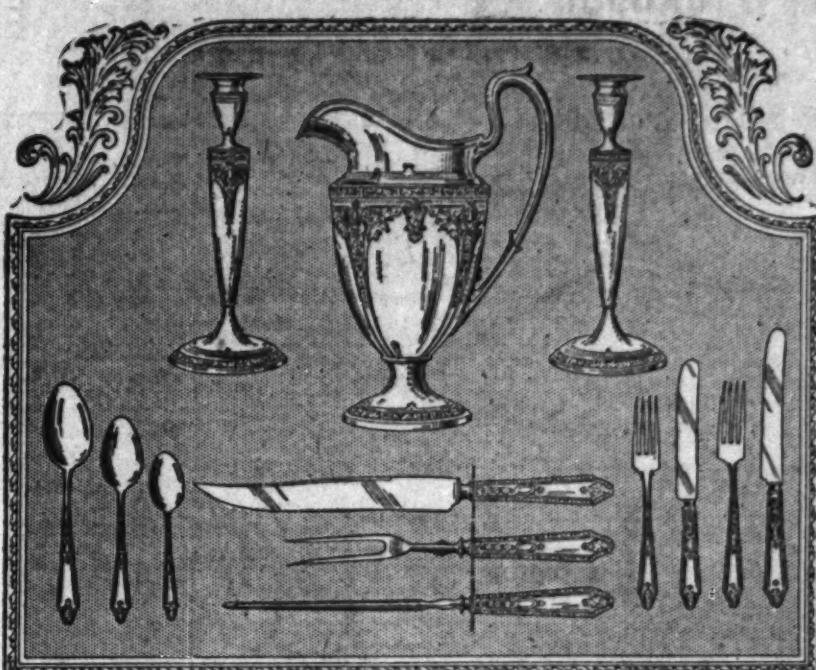

Boston, Mass., May 4.—(U. N.)—Ignoring a warning that it she notified the police serious results would follow, Mrs. Curtis Guild, widow of Gov. Guild of Massachusetts, has made known an attempt to blackmail her out of \$100,000.

In reporting the matter to the police Mrs. Guild said she received a letter demanding that she be at a named place at a specified time with the money in large bills. The letter stated that as Mrs. Guild was very wealthy she would not miss the sum asked.

Authorities are of the opinion the writer got his idea from the efforts of a Cambridge youth who several months ago threatened several wealthy women with death if he did not get the money demanded.

Mrs. Guild is one of the best known clubwomen in Boston and for years has been active in state politics.

THE wide scope of the Spaulding collection of Silverware makes it an easy matter to maintain harmony in the selection of family silver or to choose appropriate individual pieces for Gifts.

The Knives, Forks, Spoons and other "flatware" are the foundation of the Family Silver—essentials in every well appointed home.

Naturally, the other Silverware of the Table Service should be in harmony with the "flatware" and if conformity in design can be maintained throughout it adds to the charm of the "Family Silver".

We are always glad to advise in the choice of Silver—especially for Wedding Gifts where it is particularly desirable to make selections in harmony with "The Bride's Table Silver"

PUTNAM QUILTS ARMY TO PLAN CITY'S HARBOR

**Sends In His Resignation;
Effective July 1.**

Maj. Rufus W. Putnam, United States district engineer in Chicago for the last five years, has resigned his post to take charge of the program of the Commercial club for a comprehensive harbor plan for the city. Maj. Putnam tendered his resignation, effective July 1, to the war department yesterday.

Refused Leave of Absence.
The major's resignation followed efforts to obtain a year's leave of absence from the war department to permit him to take over the harbor project plans. He recently was assigned to Honolulu and both the secretary of war and the chief of engineers were opposed to granting him a leave of absence.

The Commercial club, at its own expense, has undertaken to work out the harbor plan in cooperation with city officials. The club's committee includes W. R. Abbott, president of the Illinois Bell Telephone company; Gen. Abel Davis, vice president of the Chicago Title and Trust company; John V. Farwell, Edward N. Hurley, and John T. Pirie.

Mayor's Committee to Aid Work.
Mayor Dever appointed a committee last January to work with the Commercial club in formulating the harbor plan. This committee includes Commissioner of Public Works A. A. Sprague, Corporation Counsel Francis X. Busch, Aldermen Guy Guernsey, R. A. Woodhull, E. J. Kaindl and D. A. Horn.

The outline for the proposed harbor study includes a survey of existing and potential land, air and water traffic, terminal requirements and facilities and related subjects having to do with Chicago as a future air and water port.

U.S. RENOUNCES ALL RIGHTS TO FORT DEARBORN

Washington, D. C., May 4.—(AP)—President Coolidge today signed the act releasing to Chicago all reversionary rights of the United States in the Fort Dearborn addition to Chicago.

The act was necessitated to make absolutely clear the titles to property worth fortunes.

The legal question arose in connection with the planning and erecting of skyscrapers in the vicinity of the Jewelers building, the Michigan avenue bridge and the new Wacker drive boulevard, where part of the land once was owned by the government.

ACTRESS SUES TO REGAIN HUSBAND, HEIR TO FORTUNE

New York, May 4.—(Special.)—Edna May Marsh Stuart, actress and bride of a month, thinks her nineteen year old husband, Robert, heir to a fortune, is being "railroaded" to an insane asylum by his mother.

She applied to Justice Charles L. Guy in the Supreme court today for a writ of habeas corpus to compel his production in court, declaring that he is being detained by his mother, Mrs. Lillian Anderson Stuart of 310 West 95th street. Young Stuart is said to be heir to a considerable fortune left him by an aunt in Atlanta, Ga.

In the petition Mrs. Stuart says that on April 9, less than two weeks after their marriage, her husband disappeared. An investigation, she said, disclosed that Mrs. Stuart had taken Robert to the country "for his health."

Mrs. Stuart makes the additional complaint that one "Harry Deveauz, who is no relative of your petitioner's husband, but who resides at the home of said Lillian Anderson Stuart," is helping detain Robert against his will.

WYOMING MEN PRAISE LEITER AS FARSIGHTED

Turning Duck Pond Into Ranch Reservoir.

Testimony in favor of Joseph Leiter was offered for the first time yesterday at the hearing before Superior Judge Denis E. Sullivan in the suit brought by Lady Marguerite Hyde, countess of Suffolk, to remove Leiter as trustee of the \$30,000,000 Levi Z. Leiter estate.

Experts brought from Wyoming praised Joseph Leiter's handling of his ranches in that state.

Lady Suffolk had charged that the building of a reservoir on Lake De Smet, Wyoming, was a waste of \$250,000. J. J. Bentley, Sheridan, Wyo., rancher and realty dealer, estimated that the reservoir increased the value of the Leiter 6,000 acre ranch by \$125 an acre, a total of \$750,000, as irrigated land compared with arid land.

Duck Pond Becomes Reservoir.

Lake De Smet was a duck pond until Leiter transformed it into a reservoir which supplied water to thousands of acres of land, Bentley said. Other witnesses affirmed this testimony, declaring Leiter was looked on as a benefactor to the Lake De Smet district.

That losses on the Wyoming properties were frequent in the last seven years was not denied by the witnesses. But they declared that there was a wide-spread depression on all agricultural industries in Wyoming since 1919.

Backs Bentley Story.

W. H. Wallace, commissioner of the Sheridan, Wyo., Commercial club, corroborated Bentley's praises of the De Smet reservoir. He said numerous experts on irrigation long had considered making the lake into a reservoir and that those acquainted in the district considered it a good move. U. S. Senator John B. Kendrick of Wyoming will be a witness today.

Samuel Sweitzer Sent to Jail for Alimony Arrears

Because he owes nearly \$1,500 in alimony, Samuel M. Sweitzer, brother of County Clerk Robert M. Sweitzer, was sentenced to the county jail yesterday. His fainting when sentence was pronounced, Mrs. Elizabeth O. Sweitzer told the judge that she was awarded \$40 a week alimony in a decree of separate maintenance but that Sweitzer had failed to make any payments.

DIVORCE FIXER'S CHARGES DENIED BY MRS. THORNE

Files Answer to His Suit for \$100,000.

"I didn't make such a promise, but if I did, you can't prove it."

Such might be a layman's summing up of a lengthy legal document filed yesterday by Mrs. Katherine C. Thorne, 3214 Sheridan road, through her attorney, Harry Markheim, who asked that a suit for \$100,000 brought by Cyrus R. Shipman, her former friend, be dismissed.

Shipman charged that he was prom-

ised \$100,000 to bring about a divorce between William C. (Billy) Camp and his first wife, Elita Proctor Otis Camp, New York actress, so that Mrs. Thorne could marry Camp. He arranged the matter and Mrs. Thorne married Camp, but Shipman never got his money, he said.

His Charges Called Vague.

A demurrer to this suit was filed yesterday and will be argued on Saturday before Circuit Judge David M. Brothers. Mrs. Thorne declared that Shipman's charges were vague and mere conclusions. His suit was in definite and ambiguous she said.

Shipman fixed no time and place when he was promised such an amount, the bill stated. He has no proof that Mrs. Thorne desired the Camp divorce, and his claim that he negotiated a settlement of the divorce

CAPT. RAMSEY FACES INQUIRY ON ARMY JOB

Adj. Gen. Carlos E. Black yesterday wired the Chicago police to hold Capt. R. L. Ramsey of 2126 Asbury street while an investigation is made to determine whether army property, with which he is charged, is properly accounted for.

Capt. Ramsey, a national guard officer, was arrested in Janesville, Wis., on a charge by Mrs. Lillian Ramsey. She said her husband had treated her well until last summer, when he went to a guard encampment and supposedly was smitten with a red haired girl.

Mrs. Thorne is the widow of William C. Thorne, vice president of Montgomery Ward & Co. She received an estate of nearly \$3,000,000 at the time of her first husband's death. She is the mother of Gordon C. Thorne, thrice married clubman, whose marital activities have gained him much publicity.

Mrs. Thorne later divorced Camp in a sensational suit. The chief exhibit at the hearing was a flashlight photograph of Camp and a movie actress in a close embrace.

ARREST FORMER WARDEN, DUE TO PRISON INQUIRY

Evidence of Atrocities
"Spiked Down."

Birmingham, Ala., May 4.—(AP)—With one man under arrest and other action expected soon, the Jefferson county grand jury tonight prepared to end its inquiry into the death of James W. Knox and other convicts at the Top prison mines.

W. A. Bates, former deputy warden at that camp, was arrested at Brownsville, Tenn., today following his indictment by the grand jury.

The day's developments brought the official statement from Solicitor James Davis that the grand jury "now knows the whole story of the shocking atrocities in Jefferson county under the convict leasing system."

The testimony was further described as "making complete and spiking down" the state's case.

The chief testimony was that of Homer Anderson, hospital convict, who is declared to have testified that he forced poison into the stomach of Knox "under instructions" to "cover up" the real cause of the young West Virginian's death.

At the preliminary inquiry Anderson had testified that Knox took poison tablets intending suicide. Other witnesses in the preliminary hearing said Knox died while undergoing a "ducking" and that Anderson pumped poison into the body after the man had died in a laundry vat. Anderson was said by officials to have "made a clean breast of the whole affair" in his latest appearance at the county building.

**EASTERN SECTION
OF WACKER DRIVE
NEARLY FINISHED**

Both levels of Wacker drive between Michigan and Wabash avenues will be opened to traffic within a week or ten days, John J. Sloan, president of the board of local improvements, announced yesterday.

Workers will begin laying the last layers of asphalt paving on the upper level Monday, Mr. Sloan reported. This Wabash avenue approach to the drive is practically finished now, he said.

With the opening of the east link of the improvement, traffic will be closed to make way for construction work between Wabash avenue and State street. This stretch is being used by traffic at present to reach the lower level of Michigan avenue.

NEW DISEASES TO TRAIL BAD BOOZE? DOCTORS WONDER

Medical men are curious to ascertain if new diseases and disorders will follow the drinking of bad liquor, according to Dr. Herold W. Miller, business manager of the Illinois Homeopathic Medical association, which opened its

three days convention yesterday at the Auditorium hotel.

New types of nervous trouble or stomach ailments may be found to result from drinking poorly prepared or newly made alcoholic liquors, Dr. Miller declared, in discussing the health audit clinics on the effect of moonshine alcohol, which are being conducted in conjunction with the convention.

Dr. Theodore Rasmussen, Dr. Harry

P. Knapp, Dr. Frank Wisland, and Dr. Nelson H. Lowry will submit papers this morning on the medical and surgical aspects of gastroduodenal ulcer and gall bladder.

EASTON DROPS DEAD IN STREET.
The Rev. Daniel Williams, 78 years old, a Minneapolis Presbyterian minister, dropped dead yesterday in front of 801 South Wells street. The Rev. Mr. Williams had railroad tickets on the New York Central lines from his home to Utica, N. Y.

Taste the New
Edelweiss
Memories
of the old return

No man, however familiar with malt or hop beverages he may be, can detect any change in taste between the OLD EDELWEISS and the New.

Try the New EDELWEISS of today. Taste the full body and flavor you liked so well in the beverage of years ago.

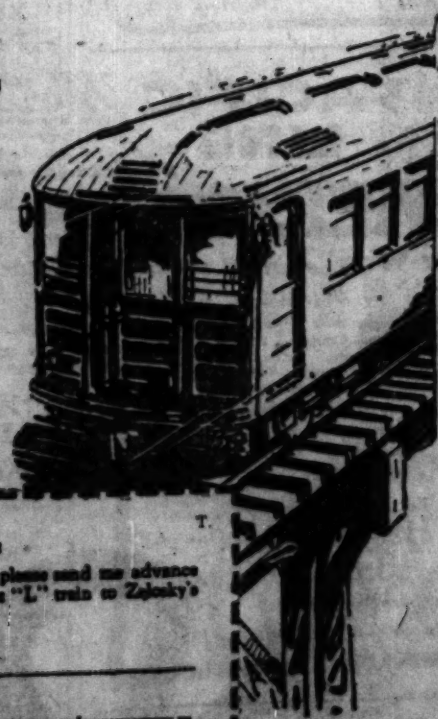

You will realize this New product is neither a substitute nor an imitation. It is EDELWEISS as it was, perfect in spite of reservations in its manufacture.

You can easily recognize the New EDELWEISS by the Red Cap on the bottle. Buy it from your grocer or delicatessen or call CANAL 1000—a case of the New EDELWEISS is always ready for you.

PROFIT
GROWS

Screeching brakes will soon bring the first "L" train to a stop at the new "L" terminal opposite the Zelosky office in Zelosky's WESTCHESTER.

Then a new phase in the development of this model suburb will begin. Values will rise instantly. A thriving community will begin to grow. Stores, schools, churches and homes will spring up around the new "L" Terminal. A throbbing, living city will be built here.

Investors who are selecting sites now are getting in on the ground floor.

The communities which Zelosky has built during the past Quarter Century are concrete assurance that the development of Zelosky's WESTCHESTER is being undertaken by men who know how.

ASK HOUSE BODY TO PROBE ACTS OF D. C. OFFICIAL

Impeachment Measure Is
Reported.

(Chicago Tribune Press Service.)
Washington, D. C., May 4.—(Special.)—The house judiciary committee reported its second impeachment resolution of the session today. The committee recommended favorable action upon a resolution seeking authority for a full investigation of impeachment charges against Frederick A. Fenning, district of Columbia commissioner. The resolution was presented this afternoon by Representative Graham (Rep., Pa.), chairman of the judiciary committee, who reported that the committee believed that a sufficient prima facie case had been made to justify a more comprehensive inquiry. The house deferred action. Charges relative to activities of Mr. Fenning in receiving fees for acting as guardian for insane veterans and other wards of the local courts have been aired before the house committee on district of Columbia affairs and on veterans' legislation. Indirectly involved in the case is Dr. William A. White, superintendent of St. Elizabeth's hospital, who testified as an expert in the Loebl-Leopold murder trial in Chicago. Dr. White was questioned by the house district committee, and it was developed that it was on his recommendation that Mr. Fenning received many appointments as guardian of wards of the government.

UNCLE DAVE 86 TOMORROW; TO CELEBRATE IT

Celebrating his eighty-sixth birthday anniversary tomorrow, "Uncle" David Warren Clark, vice president of the Madison-Wisconsin State bank, will attend a dinner in his honor at the Knickerbocker club and then enjoy a family reunion at his home, 3123 Warren avenue.

In spite of his age Mr. Clark still attends to business every day at the bank, where he is active from 9 o'clock in the morning until closing time. For eighteen years paymaster of the Peoples Gas company, Mr. Clark has held the offices of alderman, county commissioner, and vice president of the board of local improvements.

ASKS CHICAGO FOR AIR FIELD ON LAKE'S SHORE

Chicago must have a lake front terminal, in addition to the city field on the west side, Maj. P. G. Kemp, chairman of the Chicago Aero commission, declared at a luncheon at the Aviation post of the American Legion at the Morrison hotel yesterday.

"Development of the clearing field by no means should halt our plans for an airport near or in the lake," he asserted, "if Chicago is to become a big aviation center." The aero commission, aided by Maj. Rufus Putnam, army engineer, and the Chicago Plan commission, is seeking a location for the lake front field. Maj. Kemp said, and perhaps it will be in operation before the Army-Navy football game next fall.

Free Bostonian Arrested as Defamer of Mussolini

Elmer Praises Work of WEBH; Tells Its Story

Then Reviews the Night's Programs.

BY ELMER DOUGLASS.

Of the three special broadcasts last night, the third anniversary program of the Edgewater Beach hotel station WEBH, was doubly interesting for its unusual background.

The station went on the air with its first program with call letters WJAZ, the original of the present WJAZ station, with studio in the Straus building on 448 meters, May 3, 1923. The formal opening occurred May 12. This WJAZ station became W-G-N, 379 meters, on March 29, 1924. On May 29, 1924, W. H. Dewey, on behalf of the Edgewater Beach hotel, operated the station without call letters for the two following days, when it became the present WEBH. The change in ownership is interesting also, but no room for that here.

Interesting, also, Robert Boniel, energetic and progressive musical director and announcer, joined WEBH Sept. 1, 1924.

WEBH may well be proud of its musical record. From the beginning to the present it has been a high class station musically. Perhaps no other station has given so many surprise broadcasts of so high a quality. Here are heartiest congratulations.

Another extraordinary broadcast was the address by Elsie Lee, vice president of the Pennsylvania railroad, during a banquet given by that railroad's employees, at the Congress hotel, KTW, \$30 to \$50. In the introductory address Mr. Lee said women have much influence in the success of their husbands.

Of musical programs the honor goes to William Balhatch, tenor, for his recital from WMCA, 915 to 930. He has a voice of lyric quality and skill to repeat over the radio songs of home life character and then sacred songs; neat some highly dramatic. He won applause for all.

If I am not mistaken, the familiar WEBH announcer is recently being heard frequently from WMBB. WMBB has had rather good announcers at that station. WEBH has never had a good announcer at their station. WEBH still needs good announcers.

4 CHILDREN SHARE JOHN J. CHARLES' \$360,000 ESTATE

John Joseph Charles, late president of Hibbard, Spencer, Bartlett & Co., who died April 16 at Pasadena, Cal., left a \$360,000 estate, most of which will be divided among four children, according to the will filed yesterday. Suitable provision has already been made for the widow, Mrs. Ida Charles, 1310 Hillman avenue, Evanston, the will stated. A \$15,000 bequest was made to Miss Edna Charles, for a number of years, Charles' secretary, and \$2,000 to the Glenwood Manual Training school, the United Charities of Chicago, the Central Association of Charities of Evanston and the Evanston Hospital association.

The children who will receive the remainder of the estate are Sherman A. Charles, 1141 Hillman avenue, Evanston; John Joseph Charles Jr., 1310 Hillman avenue, Evanston; Mrs. Martha Charles Talbot of Pasadena, Cal.; and Mrs. Francis Charles Rontel, 27 Forest avenue, Evanston.

LLOYD D. HETH SLATED TO HEAD HAMILTON CLUB

Attorney Lloyd D. Heth is slated for president of the Hamilton club at the annual election of officers May 17. Mr. Heth was the unanimous choice of the nominating committee. George A. Barry Jr. was selected for secretary and George A. Jackson for treasurer.

Mr. Heth will succeed Walter E. Heth as president of the club. Two tickets, both headed by Mr. Heth, were proposed by the committee. Mr. Barry and Mr. Jackson are on both tickets. Other nominations include: First vice president, William L. Eaton and Henry G. Mason; second vice president, Henry M. Hammond and Martin Lunow; third vice president, Will J. Bell and W. O. Olson; directors, Walter H. Damon, William C. Kirby, Otto P. Releh, James Edgar Brown, R. Howard Taylor, R. A. Van Buren, Thomas J. Leahy, Daniel L. Smith, Alfred J. Thompson, and Ralph C. Johnson.

Or for the home put in new order this spring. Crinkly cloth bedspreads, stamped ready to embroider, are priced \$3.25.

Stamped Linen Tea Towels, 50c
Stamped Kitchen Curtains, 85c

The linen tea towels take but a few bright stitches to finish. The curtains of white voile are very effective with colored borders.

Second Floor, Wabash Avenue Building.

Sportswear Oxfords, \$10

AND perhaps nowhere in fashion is the Oxford more appropriate and more successful.

These have the crepe soles or corrugated rubber and may be chosen in pearl-colored elkskin effect or blonde calfskin with tan calfskin trimming. \$10 pair.

Third Floor, South.

Silk Envelope Chemises

Are Typical Values in the May Sale
At \$3.75

GARMENTS dainty enough for a bride's trousseau—practical enough for the business woman, are here assembled, giving a remarkable group to select for every need.

Appliqued Net and Lace Trim These Chemises

Points also have lace and the inserts of net are very lovely. Sketched, right. \$3.75.

Another chemise, at the left center, is dainty with lace which effects a yoke and trims the soft ruffle. It, also, is priced \$3.75.

Filet, Duchess-patterned Lace and Net Make Trimming on the Chemise. Right Center.

Black Enamelled Hat Boxes. Priced at \$5.

First Floor, Wabash Avenue Building.

Polka Dots Accent the Tailored Details of Women's Frocks of Crepe de Chine, \$50

TAILORED silk frocks for women—the latest favorites of fashion. Perhaps because they are so simple and at the same time so subtle—so well adapted to the youthful trend in line.

The frock is in the coat effect, with lapels, pockets and cuffs of polka dots. The back of each pleat in the skirt shows dots when one is walking. Navy blue with dotted trimming in tan and navy blue, navy and tan or gray and tan. Sketched at the right.

Women's Frocks, \$59.50 Of Crepe Romaine

These frocks show graceful revers and vestee. In black and navy blue with white or nymph pink. Beige with light tan. Sketched left.

BLONDIN TAKES FEATURE RACE ON JAMAICA TRACK

Whitney Colt Springs a
Surprise by Victory.

Jockey Injured

At KRON, O., May 4.—(AP)—Jockey Blaine was seriously hurt this afternoon when his mount, Bullfinch, fell and broke his neck in the second race, a four-furlong dash. A filly skull cap, cupular at this track, probably saved Blaine's life. He was removed to the hospital.

New York, May 4.—(AP)—Harry Payne Whitney sprung a surprise when his colt Blondin scored in the Long Beach handicap today at the Jamaica track. The colt was quoted at 15 to 1 in the betting.

Turf idol, James Butler's good colt, was second, and W. Zeigler's Mirador third. The Long Beach handicap was worth \$1,000 and Blondin ran the mile and sixteenth in the fast time of 1:42.5.

The defeat of Turf idol was a severe blow to the talent. Many of the players figured him a cinch and took a short price of 2 to 1.

JAMAICA RESULTS.
FIRST RACE—Purse \$1,000, 3 year olds and up, 6 furlongs.

Sitting pretty and no mistake!

LIKE the chap in the song, I'm sitting
on top of the world. And it's not a
bad world when you look at it from all
sides. I've hit some rough spots, but
managed to keep my seat. I want to let
it be known that the road has been a
heap smoother since I discovered Prince
Albert. Here is tobacco!

My old jimmy-pipe and Prince Albert
and I go along just singin' a song from
morning to midnight. Whenever I get
to feeling low, I take out my pipe, tamp
a load of good old P. A. into the muzzle
and light up. Old Man Trouble takes
French leave the minute that wonderful
smoke starts up the stem.

Prince Albert is friendly in spirit and
friendly in fact. It never bites my tongue
or parches my throat. They tell me the
Prince Albert process fixed that for me
and millions like me. I only know that
P. A. is cool and satisfying as spring-
water on a hot afternoon and that it suits
me to a T.

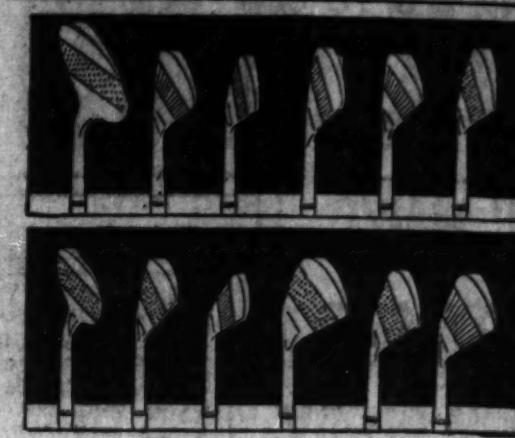

You're welcome to this leaf out of my
book. If you're not smoking P. A.,
you're not getting full enjoyment out of
your pipe. Just get yourself a tidy red
tin of Prince Albert. Load up your old
jimmy-pipe and light up. Nothing com-
plicated about that, is there? Well, that's
my formula. It always works for me.

PRINCE ALBERT

—no other tobacco is like it!

WHEAT RALLIES AFTER DECLINES ON LONG SELLING

BY CHARLES MICHAELS.

Liquidation was on in wheat with long selling freely, and with an uneasy feeling created by the British strike prices, broke 2 1/2¢ @ 11 1/2¢ with May down to 11 1/2¢. The decline brought in short covering and a rally of nearly 2¢ from the inside figure on May with the finish at net losses of 1 1/2¢ @ 11 1/2¢ with May @ 11 1/2¢, July @ 11 1/2¢, and September @ 11 1/2¢. May corn sold at 70 1/2¢, a new low on the crop, and July at 74 1/2¢ was also in new ground. The finish was 1/4¢ lower with May @ 74 1/2¢, and July @ 74 1/2¢. Oats were 1/4¢ lower with May @ 40 1/2¢, and July @ 41 1/2¢, while rye was 1/4¢ @ 11 1/2¢, lower with May @ 11 1/2¢, and July @ 11 1/2¢.

Long wheat has been coming out plentifully for several days. The heavy liquidation had the impression that the holdings of local operators were being unloaded. At the inside figure May was off 1/4¢ and July 1/2¢ from the high of the previous day. Numerous stop orders were caught on the way down, and sellers of bids were forced to protect themselves, but the sharp decline resulted in an oversold condition developing, and the rally which came toward the close was easily attained. Some of the early sellers covering on the way up.

Sell Dry in Northwest.
The liberal selling of May wheat, combined with the British strike, more than offset the effect of continued dry weather in the spring wheat territory, and while the heavy liquidation was forecast for the Dakotas there was prospect of the drought being broken. Crop comments from the southwest continue favorable. There was a good class of buying at Winnipeg, with some talk of the British government taking hold, but that market closed 2 1/2¢ lower.

Export demand at the seaboard was the best in some days, with sales finally estimated at \$60,000 to \$70,000 by monthly Manitoba to the continent. United Kingdom ports are tied up by the strike, and it is said that several Argentine and Australian cargoes will be diverted to the continent. The British strike closed unchanged to 1 1/2¢ lower, the former on May. Kansas City sold 10,000 bu No. 2 hard winter to come here at equal to 1 1/2¢ over May, and further sales would be surprising, providing the Chicago-Kansas City spread widens out to around 10 1/2¢ difference. It was 10 1/2¢ at the close.

Local Pressure on Corn.
Local pressure was apparent in corn, and prices declined sharply early, only to rally later with wheat. Commission houses bought on resting orders, and there was also considerable short covering. Eastern demand showed no improvement, with New England trying to cancel purchases for opening of lake navigation shipment. At the same time, warehouse receipts for 270,000 bu were canceled for shipment from local elevators. Weather conditions were favorable for field work.
Oat prices held within a range of 1/2¢, with trade largely of a local character. Outside interest in rye was limited, and the market was dominated largely by the action of wheat. The foreign strike also had some effect. Little attention was paid to the continued dry weather in the northwest.

Shell Union Oil Reports Larger Earnings in 1925

New York, May 4.—Net earnings of Shell Union Oil corporation and subsidiaries from operations for 1925, after provision for taxes, amounted to \$23,115,964, the annual report showed today. The amount the year before was \$24,662,738, but this included profits in excess of \$5,000,000 from the sale of investments. After deducting \$1,031,536 for preferred dividends and \$2,600,000 for special reserve, \$1,934 a share was left applicable to common stock, compared with \$1.74 a share in 1924.
The balance sheet on Dec. 31, 1925, showed total assets valued at \$32,427,904. The profit and loss surplus amounted to \$24,804,779. The current assets amounted to \$44,625,367, and current liabilities totaled to \$19,315,808.

WORLD'S GRAIN MARKET NEWS

Heavy selling of May wheat credited to holders who were supposed to stick until the end of the month has created the impression among the trade that the 1926 wheat crop was long in the market. The heavy liquidation was followed by a rally of nearly 2¢ from the inside figure on May with the finish at net losses of 1 1/2¢ @ 11 1/2¢ with May @ 11 1/2¢, July @ 11 1/2¢, and September @ 11 1/2¢. May corn sold at 70 1/2¢, a new low on the crop, and July at 74 1/2¢ was also in new ground. The finish was 1/4¢ lower with May @ 74 1/2¢, and July @ 74 1/2¢. Oats were 1/4¢ lower with May @ 40 1/2¢, and July @ 41 1/2¢, while rye was 1/4¢ @ 11 1/2¢, lower with May @ 11 1/2¢, and July @ 11 1/2¢.

While selling of May and July wheat was on in Chicago by liquidation, there was also selling in Winnipeg credited to a Chicago operator who was long in the market. May in Winnipeg closed almost 1/2¢ lower after a break of 1/4¢ from the close of Monday. July there dropped nearly 1/2¢, closed at \$1.45, or 1 1/2¢ over the lowest of the day, against \$1.50 for May.

"Wheat in Oklahoma and Kansas looks fine," said W. L. Richardson of New Orleans, who made an auto trip over that country recently. "Wheat over the south is also very good."

CASH GRAIN NEWS

The quotation came in the market as a buyer of cash wheat and sales of 600,000 to 700,000 bu were reported in all positions, largely Manitoba. Demand for other grain was slow.

Chicago handlers sold 30,000 bu corn, 51,000 bu oats, and 9,000 bu barley to the domestic trade, with 15,000 bu oats to go to stock. Kansas City sold 10,000 bu No. 2 hard winter to come here at 1 1/2¢ over Chicago May, and more was offered.

Demand for cash wheat was fair with the close here about unchanged. No. 2 red brought 90¢ and No. 3 hard 84¢ over May. Kansas City quoted premiums unchanged to 1¢ higher. Spring wheat at Minneapolis was unchanged to 1¢ lower, as compared with May, with shipping sales at 14,000 bu.

Some of the cash corn arriving shows the effect of heat and ground damage, which is reflected in a wide range of prices. Bids on spot was 1/2¢ higher to 1/4¢ lower, with No. 2 grades 1/2¢ under to 1/4¢ over May. No. 3 grades 1/2¢ under to 1/4¢ over. May No. 4 grades May prices to be under. Outland markets were unchanged to 1¢ lower.

CHICAGO STOCK TRANSACTIONS

Day's sales \$2,500 Year ago \$4,200 Total, 1925 \$7,700 Previous year \$7,700

Although issues traded in were strong, Chicago stocks generally slipped yesterday to the point of dullness. Stewart-Warner gained a point to 73 1/2. Auburn Automobile advanced 1/2 and Armour A closed 1/2 higher. On small sales, Great Lakes Dredge was up 1 point and Armour of Illinois preferred gained 1/4. Balaban & Katz and Merchants & Manufacturers each advanced a point. U. S. Gypsum slid down a point. Morgan Lithograph called for redemption on July 1 of \$353,500 of preferred stock at \$110 and accrued dividends. Stockholders of Pines Winter-front added Howard H. Crawford of Detroit and James Hyman of Minneapolis to the board of directors after voting to increase the board from 5 to 9 members. Two other directors will be elected later.

W. J. H.—The income account of Midland Steel Products company shows \$12.74 a share earned on the 8 per cent participating preferred and \$11.41 a share on the common stock in 1925. This compares with \$12.81 and \$10.9 a share, respectively, on these stocks in 1924. Surplus was increased to \$2,915,154 at the end of 1925 from \$1,233,111 at the close of 1924. In addition to regular dividends of \$4 on the preferred and \$4 on the common, the company has paid \$3 in extras in 1925 and also has paid \$3 in the preferred and, on the common, \$5 cents in 1925 and 95 cents in 1924. The preferred stock is high grade. The common deserves a fairly good rating.

Reynolds Spring.
C. C. K.—The Reynolds Spring company manufactures and sells cushion springs for automobiles, furniture, car seats, etc., bakelite products, and also radio apparatus. It owns three plants in Jackson, Mich., where also its general office is.

The company reported a deficit of \$114,118 for 1925, compared with a surplus of \$469,585 before dividends in 1924. No dividends have been paid on the common stock since May 1, 1925. It is a speculation. We cannot predict the course of the market.

\$3,500,000

International Railways of Central America

First Mortgage Collateral 6% Gold Notes

Dated May 1, 1926

Interest payable May 1, and November 1, at the office of the fiscal agent for the loan, J. Henry Schroder Banking Corporation. Coupon Notes in \$1,000 denominations, registrable as to principal. Principal and interest payable in New York City in United States gold coin. Redeemable in whole or in part at the option of the Company, on any interest date on 60 days' notice at 102 and accrued interest.

THE CHASE NATIONAL BANK OF THE CITY OF NEW YORK, Trustee

Interest payable without deduction for any Federal income tax up to 2% per annum, which the company or the Trustee may be required to permit to pay at the source. The company will agree to reimburse the holders of these Notes upon application within 60 days after payment for Connecticut, Pennsylvania and California personal property taxes not in excess of four mills per annum upon each dollar of the principal amount thereof, any Maryland securities tax not in excess of four and one-half mills per annum upon each dollar of the principal amount thereof, District of Columbia personal property tax not in excess of five mills per annum upon each dollar of the principal amount thereof and the Massachusetts income tax on the interest not exceeding 6% of each interest per annum.

The Company agrees to maintain with the Trustee, as collateral security for these Notes, its First Mortgage Bonds of a principal amount equal to at least 150%, and of a market value equal to at least 110%, of the principal of all Notes outstanding.

Minor C. Keith Esq., President of the Company, summarizes his letter as follows:

Company: The International Railways of Central America, organized in 1904, operates 597 miles of railroad and 61 miles of sidings in Guatemala and Salvador. The road in Guatemala extends from the Atlantic Coast to the Pacific Coast via the City of Guatemala, and through the coffee section of the Pacific region. In the Republic of Salvador the road extends from the City of San Salvador to the Port of La Union on the Pacific Coast. The lines of the company now in course of construction will connect existing lines in Salvador with the Guatemala System. The new mileage will shorten considerably the trade route from the Pacific region of Salvador to the United States and Europe. The Company carries over its lines substantially the entire production of the United Fruit Company within the region served by the railroad.

Security: These Notes will be a direct obligation of the company and specifically secured by deposit with the Trustee of First Mortgage 5% Sinking Fund Gold Bonds, due May 1, 1927, of the International Railways of Central America, which will be maintained so that the principal amount shall equal not less than 150% of the principal of all notes outstanding.

The First Mortgage 5% Sinking Fund Gold Bonds, including those to be pledged as security for this issue, are a direct first lien on 411 miles of railroad, and equipment; and a lien on 135 miles additional, subject to \$4,580,000 divisional bonds. An additional 51 miles of road is owned free and clear by a subsidiary, over 99% of the stock of which is pledged under the mortgage. Upon completion of 193 miles of road now under construction, the first mortgage bonds will be a direct lien on 739 miles of railroad, on 604 miles of which such bonds will be a direct first lien.

Earnings: The company's income available for fixed charges and the interest on its mortgage bonds

The Company agrees to make application to list these Notes on the New York Stock Exchange.

Notes are offered for delivery when, as and if issued and received by us, and subject to approval as to legality by Messrs. Sullivan & Cromwell. It is expected that temporary notes, or interim receipts, will be ready for delivery about May 20, 1926. Sterling bonds are computed at \$4.86 1/2 per pound Sterling.

Hinsdale Is Getting Ready to Stage an All Day Dog Show

BY NANCY R.

There's always much friendly rivalry between Hinsdale and Lake Forest when the riding and hunting seasons are on. Both communities have ardent followers of the chase; both communities have groups of folk who take great pride in their horses and their dogs. When either one gets up a horse show, the other turns out in full force to admire and compare notes.

This year Hinsdale takes the lead in putting on an outdoor event, with a dog show scheduled for the fifth of June until mid-September. It was the idea of the Hinsdale athletic field. They're just getting under way in their preparations, but before long all the owners of fine animals thereabouts will be given a chance to enter them.

Of course, those three enthusiasts, Katherine, Emily, and Frances Hamill, daughters of the Robert W. Hamill, are at the helm of the undertaking—they are ringleaders in the interesting things that go on out Hinsdale way—and they're getting ready to show their prize dog territories. Working with them to make the show a success are Mrs. Stevenson Peabody, Mrs. J. S. Knowlton, Mrs. Ralph Kimball, and Mrs. William Bruckner.

More summer holiday plans bob up each day. The T. Albert Potters of Lake Forest, who have leased their house to the Wolcott Blairs from the middle of June until mid-September, are going to spend the warm season at Jamestown, R. I., that gay little spot on Conanicut island, only a few miles from Newport.

The Potters' house was completed last autumn; it's a spacious white building on Westminister avenue, just east of Green Bay road, in the same section of land on which the Billy Potters are soon to start building. The Potters, who are members of the Hinsdale club, are the year-round group in Lake Forest, who are at present in Mrs. Potters' niece, Miss Patty Woodhull of New York, here for a fortnight's rest.

Day's News in Society

The new officers of the English Speaking Union are John M. Zane, president; Mrs. Chauncey Borland, Mrs. Bridges, Frederick T. West, and Mrs. James Lawrence Houghton, vice presidents; James Douglas, secretary, and C. R. Whitworth, treasurer. The directors, to serve until 1928, are Mrs. Frank Hamilton, Mrs. Ernest Reckitt, Carroll Sudler, Augustus S. Peabody, Miss Estelle Ward, and A. N. Marquis.

Mrs. George Richardson of Lake Forest is to give a tea at 3 o'clock Friday afternoon for the members of her committee for the annual drive for funds for Arden Shore camp, which is to begin next week. Mrs. Richardson's workers include Mrs. William E. Cassberry, Mrs. George Stevens, Mrs. Roger Brumore, Mrs. C. S. Walker, Mrs. William E. Clow, Mrs. Arthur F. Tuttle, and Miss Jane Morton.

Mr. and Mrs. Hobart Chatfield-Taylor of Santa Barbara, Cal., have landed from their trip abroad and are spending ten days in Detroit visiting Mrs. Chatfield-Taylor's parents, Mr. and Mrs. George H. Chatfield. They will probably visit the Wayne Chatfield-Taylor here on their way west.

Mrs. Elizabeth Towner of Highland Park has returned from California, where she spent the winter, in time for the opening of the golf season at the Racine Country club.

Mr. and Mrs. Aldis J. Browne of 67 Oak street, who are in the east for a season, spent the week-end at Newport, R. I.

Mr. and Mrs. Ira Nelson Morris gave a dinner party in New York City on Sunday for Lady Isabella Howard, wife of the British ambassador to the United States.

Mr. and Mrs. Paul Wilder landed in New York City on Monday after spending two months in Italy and on the Riviera, and a month in Paris. They plan to go directly to their Lake Forest place at 600 North Sheridan road.

The Alfred H. Grangers of Lake Forest, who have been traveling in Europe for the last ten weeks, are expected to arrive here on Sunday.

Mrs. Van Leer Wells of 40 East Madison place, accompanied by their respective children, plan to sail on May 25 to be in Europe all summer.

Mrs. A. H. C. Dalley of 1120 Lake Shore drive and her daughter, Miss Victoria Dalley, have returned from Victoria, Canada, and the Pacific coast. Mrs. Roger Legner will give a luncheon today at 1 o'clock in the Salle Royale of Hotel Sovereign for 125 guests.

WINNIE WINKLE, THE BREADWINNER: What's in a Name?

Mendelssohn Club Ends Season with Benefit Concert

With a concert given for the benefit of the Mary clubs at Orchestra hall last night, the Mendelssohn club concluded its activities for the season. The comfortably large crowd that attended was an indication of financial success; it is certain patronage was paid for their attendance. The Mendelssohn club has been singing uncommonly well this season and never better than last night. Under the direction of Calvin Lampert it was heard in a group of songs by Bach, Handel, Morley, and Converse, which were performed not only accurately but with highly ingratiating sonority and enthusiasm.

Helen Hedger, soprano, was the soloist. One of the best young voices in this part of the country was applied to the aria, *Alors é lui*, from "Traviata."

Eva Polakoff, who has youth and talent, exhibited them both in a violin recital at Kimball hall. A reasonably conventional program was played with good tone and evidences of careful study.

Settlements to Give Annual Musical Fete

The second annual inter-settlement music festival will be given by the combined children's choruses of the Chicago settlements under the auspices of the music committee of the Chicago Federation of Settlements next Saturday afternoon, at the Eighth Street theater. Mrs. Charles Morgan McKenna is chairman of the committee. A cantata, "Elwatha's Childhood," by Bonnie M. Whiteley, will be presented under the direction of Jacques Gordon. The junior settlement orchestra will play, and Bohemian folk songs will be sung by a group of children from the Howell Neighborhood house.

Musical Society to Hold Election Next Monday

The Lake View Musical society announces its annual meeting for next Monday at the Belden Stratford hotel. There is to be a business meeting at 12 o'clock, when officers will be elected and reports made. Luncheon will be served at 1 o'clock and a musical program will follow at 2:30. Don José Mojica of the Chicago Civic Opera company is to sing. The members who will participate are Eva Gordon Horadevsky, contralto; Mrs. Sylvia Bargman Wentworth, pianist, and Troy Sanders, accompanist.

Chicagoans Consecrated Bishop in Serbian Church

A dispatch from Belgrade, Yugoslavia, stated yesterday that the Rev. Marjary Uskovich of Chicago had been consecrated bishop of the Serbian church for the United States and Canada. Serbian royalty, the United States minister, John Dwyer Prince, and diplomats of other nations attended the ceremonies. Bishop Uskovich will continue to reside in Chicago, according to the dispatch.

Here's a Sure Test if You're Wondering About Her Temper

BY DORIS BLAKE.

"How can a man judge a girl as a desirable future mate?" asks Bachelor. "If she is putting up as big a bluff as I am about being good natured, and agreeable, and all that, while we are going together, how am I to know what the future holds for us?"

If she is as honest about it, Bill, that will help. But there are ways of determining whether a girl's sweetness is as genuine as it appears on the surface. Not all sunny temperaments are as sunny as they are exhibited on parade, that's sure. The wise young swain should judge his future wife, not by her smiles for him, but by her behavior toward others: her parents, her brothers and sisters, and her neighbors and friends.

By her general attitude rather than by her particular attitude may the young man get the clew to what the girl is likely to be in all weathers.

Unselfishness can be determined in the same way. Not by those sacrifices made for you alone, Bill, but see how they are revealed in daily service at home, or at business. The giving type of woman is a better matrimonial bet than the receiving. The girl who is charitable about other people's failings is easier to get along with than one who sees motives and designs in every move.

A sunny temper and unselfishness are the two most livable-with assets human beings of either sex may possess.

A possible husband may be judged by the same rule of observation—his manner toward his family and his associates. A genuine character trait is more difficult to conceal than an ungentle one. It stands up under every test. For instance, if a man is by nature unselfish and even tempered he will be so in every circle of which he is a part. If he is playing at being an agreeable soul, the strain is too great for a continued performance and there are occasions, in intimate family circles particularly, when the real self shows through the false veneer.

When contemplating marriage, then, no matter which sex you belong to, if you want an honest forecast of your future, judge the partner under consideration by the above test.

NEW YORK SOCIETY

New York, May 4.—[Special.]—The last of the coffee dances took place tonight at the Cosmopolitan club. Numerous dinner parties preceded it. Among the patronesses were Mrs. Stephen H. P. Pell, Mrs. F. Ashton Depeyster, Mrs. John D. Rockefeller, Mrs. William G. Rockefeller, and Mrs. J. Clarkson Jay.

Lady Isabella Howard, wife of Sir Esmé Howard, the British ambassador, was the guest at a luncheon given by the women members of the Italy-America society at the Madison.

Keeping Your Schoolgirl Complexion

By IRENE CASTLE

Copyrighted 1926 by P. O. Beauty Features

Using an Unproved Soap
On your face may prove a costly folly

That is why foremost beauty experts of the world advise this simple daily rule in gaining the charm of natural loveliness.

THE modern way to beauty is well charted. Leading skin authorities urge it. Thousands of beautiful women employ it. To endanger your complexion with untried ways is a folly.

Before Palmolive came, you were told "use no soap on your face." Because soaps then were judged too harsh.

Then came this famous creation. A soap made of rare beauty oils in expert blend. A soap made to be used lavishly on the skin. A soap that changed the beauty methods of the world.

Thus today the accepted beauty care is simply the balmy olive and palm lather of Palmolive used in this simple way. Beautiful complexions are too priceless for experiment.

Try this one week... note the changes your skin makes.

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be

dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge, if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away.

Get real Palmolive.

Do not use ordinary soaps in the treatment given above. Do not think any green soap, or represented as of palm and olive oils, is the same as Palmolive.

It costs but 10c the cake!—so little that millions let it do for their bodies what it does for their faces. Obtain a cake today. Then note what an amazing difference one week makes. The Palmolive Company (Del. Corp.), Chicago, Illinois. (Advertisement) 3172

That Shrill, Twangy Voice Can Be Made Pleasant to Hear

A Little Girl of 12 has a shrill, high pitched voice. She is a pretty little thing otherwise. Her mother was under criticism for not training the child to lower her voice, speak more slowly and enunciate her words properly.

How could her mother teach her? asked a vocal teacher. "She's taught her all she knows. She talks exactly the same way herself."

Mothers certainly know what an asset a pleasing voice is. But they don't realize it is a matter of training, that children use the tones and speech they hear most often. The influence of a parent upon voice formation in the child is more powerful than any other factor in determining the quality of the voice. If a youngster hears coarse, strident voices and poorly delivered words, she will develop similar vocal and speech defects. Likewise, a child hearing soft, resonant tones will imitate them with ready facility.

There are defects in nose and throat that sometimes cause poor vocal sounds, such as adenoids, tonsils, nasal obstructions. These, of course, must be remedied before speech is corrected.

The health of the body has a great deal to do with beauty of speech. One in poor health suffers fatigue of the voice. Every one has experienced a change in the voice when he or she has been over-fatigued, or excessively hungry, proving the quick reaction of the voice to physical conditions.

Poor posture is another reason for unusual sounds. A relaxed, drooping position of the trunk and head allows the larynx to sink, and results in poor tones. An erect posture, with the abdomen well supported by muscular contraction and chest carried high, is the basis for good sound production.

BEAUTY ANSWERS

B. H. C. HAVE THE EYEBROWS trimmed, not plucked. With an eyebrow brush, or small fine tooth brush, brush them every night and morning. This will promote their growth.

ENGAGEMENTS

Mrs. Eloise Whitney Wortley of Winnetka announces the engagement of her daughter, Katherine Whitney, to Charles Francis Pearce Jr., son of Mr. and Mrs. Charles F. Pearce of Glenview. The wedding is to take place early in June.

An engagement of Chicago interest is that of Miss Elizabeth Colton, daughter of Mr. and Mrs. Louis M. Colton, to Arthur C. Byrne, son of Mr. and Mrs. Cornelius E. Byrne of New York and Long Island. Miss Colton's mother came originally from Chicago.

Bright Sayings of the Children

The Tribune will pay \$5 for each child's saying printed. The story told must never have been printed in any newspaper or magazine. It is not possible to acknowledge or return unsolicited contributions. Write on one side of the paper. Address bright sayings to Aunt Sue, The Tribune, Chicago.

Buddy came over to show Kathie his new suit with long pants. On asking her how she liked it she turned him round and round and critically viewed him from all sides, then in a judicial voice said, "Buddy, there's too much long in it for your little." J. O.

As we passed a store window, which displayed a number of stuffed birds, my little boy exclaimed excitedly, "O mother, I met every one of those birds in person last summer on the farm." I. B.

Shiny nose?

Here is a chance to prove for yourself that you CAN get rid of that oily, shiny look which ruins so many complexions.

A wonderful new cream called Vauv does it! Put it on in the morning, powder over it—and for hours your nose will keep just as dry as velvet. You want it to have. One girl says: "I have tried nearly every cream on the market, but Vauv is the first one that really does get rid of shiny nose. The longer I use it the less I have to powder. My skin seems to get smoother every day, and blackheads have disappeared. Try it for yourself. Go to any drug or department store and get a tube of Vauv. Use it for one week or directed. Then, if you are not entirely satisfied, mail me the tube and I'll refund your money and postage. Be free at last from that worst of all skin blemishes—an oily, shiny nose."
